“I am happy that AerSale is continuing to keep this great facility in Rio

Rancho,” said Gregg Hull, Mayor. “This shows that Rio Rancho and New Mexico have a global appeal to companies, and reaffirms that we are a great community for most any industry.”

Specializing in the MRO of composite and mechanical airframe components, AerSale Component Solutions provides a wide range of innovative, high-quality component overhaul and aircraft component repair solutions developed to meet or exceed OEM standards. These services are fully supported with a large inventory of aircraft spares, loaners, and exchange units.

“This new brand reinforces AerSale’s investment in [component MRO solutions](#),” said Dean Vitale, General Manager. “We took this opportunity to rethink not just our name, but our entire brand. Rebranding brings our expert airframe structure and mechanical component MRO services front and center, while AerSale’s extensive material support network enables us to provide a broad range of solutions beyond repairs.”

The company’s location is situated in the Albuquerque area, New Mexico’s largest city, and features a 100,000-square-foot aircraft repair facility with five adjoining work stations. A team of over 35 aerospace professionals and mechanics handles airframe component and structures repairs and overhauls, composite flight surfaces, sheet metal, structures, nacelles, mechanical component repairs, full Level III NDT services, certified welding, brush cadmium plating, and aluminum flame spray.

AerSale acquired Aero Mechanical Industries in 2015.

About AerSale

A global aviation leader, AerSale specializes in the sale, lease, and exchange of used aircraft, engines, and components, in addition to providing a broad range of maintenance, repair, and overhaul (MRO) services and engineering services for commercial aircraft and components. AerSale also offers asset management services to owners of end-of-life aircraft and engine portfolios. Headquartered in Coral Gables, Florida, AerSale maintains offices and operations in the United States, Europe, and Asia.
