

ClearPoint Neuro Reports Third Quarter 2020 Results

Revenue Reaches a Record \$3.5 million

IRVINE, Calif., Nov. 10, 2020 (GLOBE NEWSWIRE) -- ClearPoint Neuro, Inc. (Nasdaq: CLPT), a medical device company with a portfolio of products focused on enabling therapies for neurological disorders, today announced financial results for its third fiscal quarter ended September 30, 2020.

Third Quarter 2020 Highlights

- Reported record total revenue of \$3.5 million, a 20% increase over the same quarter last year
- Increased biologics and drug delivery revenue to \$1.5 million, a 162% increase over the same quarter last year, driven by new clinical service relationships
- Supported 200 cases in the quarter

"This quarter's results, with a return to double-digit growth, underscores the dedication and focus of the entire ClearPoint Neuro team," commented Joe Burnett, President and CEO of ClearPoint Neuro. "As elective procedures increased in the third quarter, our manufacturing employees in our Irvine, CA facility and our Clinical Specialist team on the front lines worked diligently to provide best-in-class support. I'm pleased that hospitals have prioritized our team's access to support cases, enabling the best service possible. As a result, I am proud to disclose that we supported 200 cases in the quarter. While there remains uncertainty due to the pandemic, our team is being proactive in redeploying our resources to further our engineering efforts and investing in our people and our pipeline of future products and services.

"As we look to the conclusion of the year, we believe that total revenue for 2020, absent a resumption of a partial or full suspension of elective procedures due to the progression of the COVID-19 pandemic, will be in a range of \$12.0 million to \$12.5 million, which would represent growth over the prior year of between 7% to 11%," continued Burnett. "Nonetheless, it should be kept in mind that our case volume currently represents approximately 80% of our pre-pandemic estimates, and, while hospitals are willing to treat very sick patients, many of these patients are in a high-risk category for COVID-19 based on age or other conditions. As a result, patients, rather than hospitals, are more likely to make the decision to postpone procedures."

Third Quarter 2020 Financial Results

Total revenues were a record \$3.5 million in the third quarter of 2020, compared to \$2.9 million for the third quarter of 2019, an increase of 20%.

Functional neurosurgery navigation revenue, which consists of disposable product commercial sales related to cases utilizing the ClearPoint® system, decreased 1% to \$1.8 million for the third quarter 2020, from \$1.9 million for the same period in 2019. This decrease reflects the continuing effects of the COVID-19 pandemic, in which elective surgical procedures that were postponed or cancelled at the outset of the pandemic have resumed, albeit at volumes that have not yet reached pre-pandemic activity.

Biologics and drug delivery revenues, which include sales of disposable products and services related to customer-sponsored clinical trials utilizing the ClearPoint system, increased 162% to \$1.5 million for the third quarter 2020, from \$0.6 million for the same period in 2019. This increase was due to the establishment of additional relationships with biologic and drug delivery companies that included period-based retainers for ClearPoint Neuro's clinical services in support of such companies' clinical trials.

Capital equipment and software revenue, consisting of sales of ClearPoint reusable hardware and software, and of related services, decreased 48% to \$0.2 million for the third quarter 2020, from \$0.4 million for the same period in 2019. While revenues from this product line historically have varied from quarter to quarter, the Company believes that many hospitals have postponed capital equipment acquisition activities due to the COVID-19 pandemic.

The Company achieved a gross margin of 80% on its sales for the third quarter 2020, compared to a gross margin of 66% for the same period in 2019. This increase was due primarily to a shift in the mix of revenues by line of business that resulted in service revenues, which bear higher gross margins in comparison to other product lines, representing a greater contribution to total sales for the third quarter 2020, relative to the same period in 2019.

Operating expenses for the third quarter 2020 were \$4.1 million, a 43% increase from operating expenses of \$2.9 million for the same period in 2019. This increase was comprised of: (a) research and development costs, which increased 59% due primarily to increases in headcount and increased project activity; (b) sales and marketing expenses, which increased 40%, due primarily to increases in headcount of the Company's clinical specialist team; and (c) general and administrative expenses, which increased 33%, due primarily to an increase in company-wide share-based compensation, and a reduction of the allocation of shared departmental resources to production due to the reduced manufacturing activity as an effect of the COVID-19 pandemic.

Operating loss for the third quarter 2020 was \$1.3 million, compared with \$0.9 million for the same period in 2019.

Cash and cash equivalent balances at September 30, 2020 were \$14.7 million.
