

# Regional CDMA-Based Device Shipment Estimates – Midpoints

CALENDAR YEAR, MILLIONS, AS OF APRIL 21, 2010

Note: As with our prior estimates of CDMA-based device ASPs and unit shipments, the reported quarterly estimated ranges of ASPs and unit shipments are determined based on the information as reported to us by our licensees during the relevant period and our own estimates of the selling prices and unit shipments for licensees that do not provide such information. Not all licensees report selling prices and/or unit shipments the same (e.g., some licensees report selling prices net of permitted deductions, such as transportation, insurance and packing costs, while other licensees report selling prices and then identify the amount of permitted deductions in their reports), and the way in which licensees report such information may change from time to time. The midpoints of the estimated ASP and device shipment ranges for the relevant periods are identified for comparison purposes only and do not indicate a higher degree of confidence in the midpoints. WCDMA includes TD-SCDMA.
