

Qualcomm's COVID-19 response

Our employees

- Vast majority are working remotely
- Implemented strict safety measures
- 24/7 Emergency Response Team in place
- Provided mental wellbeing, professional development and benefits resources
- Reiterated job stability, instated remote onboarding

Our customers

- Maintaining supply chain stability
- Continuing to deliver our products on time
- Advancing the product roadmap and meeting our customer commitments
- Implementing remote hardware testing and connectivity infrastructure

Our community

- Monetary and in-kind technology donations aimed at providing relief to individuals, small-medium businesses and front-line workers; closing the connectivity gap for students
- Technology expertise towards fighting the virus
- Encouraging our employees to support community efforts
