# SUNation Energy Announces Retirement of Senior and Junior Secured Debt in Full

RONKONKOMA, N.Y., March 14, 2025 (GLOBE NEWSWIRE) -- **SUNation Energy, Inc. (Nasdaq: SUNE)** ("**SUNation**" or the "**Company**"), a leading provider of sustainable solar energy and backup power solutions for households, businesses, and municipalities, today announced that has repaid in full all of the accrued principal and interest associated with a total of \$9.4 million in senior and junior secured loans with maturity dates ranging between July 2025 and June 2027.

In connection with these repayments, the respective loan and related agreements were terminated, all associated monthly payment obligations eliminated, and certain material restrictive covenants which were contained in the respective loan agreements were removed. The retirement of this debt removes an annual cash drain of approximately \$3.4 million through 2027.

As previously disclosed, on February 27, 2025, SUNation consummated the first tranche of a securities offering for gross proceeds of \$15 million (the "Equity Financing"). The secured loan repayments were made using a portion of the proceeds from the Equity Offering.

"These repayments have materially deleveraged our balance sheet, resulting in improved cash flow to fund our operations and providing us with financial flexibility to pursue our long-term growth objectives, including strategic acquisitions of regionally strong solar companies across the United States," said Scott Maskin, Chief Executive Officer. "This marks an important step in our efforts to stabilize our operations and create a strong and sustainable platform to pursue the opportunities inherent in our industry."

Additional information regarding these repayments is available in a Form 8-K that the Company filed with the U.S. Securities and Exchange Commission ("SEC") on March 13, 2025, a copy of which is available free of charge on the SEC's website at [sec.gov](https://www.sec.gov).
