"Sales were strong in the fourth quarter with growth in all geographic markets," said Allen Carlson, Sun Hydraulics' president and CEO. "Operationally, we maintained healthy margins throughout the year. Our performance led the Board, for the fourth consecutive year, to declare a shared distribution."

"In 2013, we experienced a strong second half," Carlson added. "That momentum gives a good start heading into 2014, with robust business conditions in all geographic markets. Also encouraging, economic indicators are positive. The U.S. PMI, released this morning, bounced back from its reading in January. This bodes well for our business and the capital goods industry in 2014."

"This week, Sun is exhibiting at the International Fluid Power Exposition in Las Vegas," Carlson continued. "We are introducing several new products at the show. These new products expand our addressable markets, make us more competitive, and enhance our integrated package capabilities. Sun remains focused on product development and delivering high quality products to the marketplace to drive growth."

Shared Distribution

The 2013 shared distribution totals approximately \$5.7 million. It consists of a contribution to employees equal to 10% of wages, most of which will be paid into retirement plans in the form of Sun Hydraulics stock, and a \$0.09 per share cash dividend to be paid to all shareholders. The shared distribution dividend is payable on March 31, 2014, to shareholders of record as of March 15, 2014.

First Quarter Dividend

Sun's Board also announced a \$0.09 per share quarterly cash dividend on its common stock. The dividend is payable on April 15, 2014, to shareholders of record as of March 31, 2014.

Outlook

First quarter 2014 revenues are expected to be approximately \$55 million, up approximately 8% from the first quarter of 2013. Earnings per share are estimated to be \$0.41 to \$0.43 compared to \$0.37 in the same period a year ago.

FORWARD-LOOKING INFORMATION

Certain oral statements made by management from time to time and certain statements contained herein that are not historical facts are "forward-looking statements" within the meaning of Section 21E of the Securities Exchange Act of 1934 and, because such statements involve risks and uncertainties, actual results may differ materially from those expressed or implied by such forward-looking statements. Forward-looking statements, including those in Management's Discussion and Analysis of Financial Condition and Results of Operations are statements regarding the intent, belief or current expectations, estimates or projections of the Company, its Directors or its Officers about the Company and the industry in which it operates, and assumptions made by management, and include

among other items, (i) the Company's strategies regarding growth, including its intention to develop new products; (ii) the Company's financing plans; (iii) trends affecting the Company's financial condition or results of operations; (iv) the Company's ability to continue to control costs and to meet its liquidity and other financing needs; (v) the declaration and payment of dividends; and (vi) the Company's ability to respond to changes in customer demand domestically and internationally, including as a result of standardization. Although the Company believes that its expectations are based on reasonable assumptions, it can give no assurance that the anticipated results will occur.

Important factors that could cause the actual results to differ materially from those in the forward-looking statements include, among other items, (i) the economic cyclicality of the capital goods industry in general and the hydraulic valve and manifold industry in particular, which directly affect customer orders, lead times and sales volume; (ii) conditions in the capital markets, including the interest rate environment and the availability of capital; (iii) changes in the competitive marketplace that could affect the Company's revenue and/or cost bases, such as increased competition, lack of qualified engineering, marketing, management or other personnel, and increased labor and raw materials costs; (iv) changes in technology or customer requirements, such as standardization of the cavity into which screw-in cartridge valves must fit, which could render the Company's products or technologies noncompetitive or obsolete; (v) new product introductions, product sales mix and the geographic mix of sales nationally and internationally; and (vi) changes relating to the Company's international sales, including changes in regulatory requirements or tariffs, trade or currency restrictions, fluctuations in exchange rates, and tax and collection issues. Further information relating to factors that could cause actual results to differ from those anticipated is included but not limited to information under the heading "Management's Discussion and Analysis of Financial Condition and Results of Operations" in the Company's Form 10-Q for the quarter ended September 28, 2013, and under the heading "Business" and particularly under the subheading, "Business Risk Factors" in the Company's Form 10-K for the year ended December 28, 2013. The Company disclaims any intention or obligation to update or revise forward-looking statements, whether as a result of new information, future events or otherwise.
