"Third quarter results were what we expected, with moderate growth in sales and a significant increase in earnings," stated Allen Carlson, Sun's President and CEO. "As we look into the fourth quarter and beyond, we see business slowing. Our business is cyclical and we are in the down slope of the cycle. How long the downturn will last is outside of our vision, but rest assured our focus remains on creating opportunities for long-term profitable growth."

"Sun Hydraulics has a strong balance sheet, the right products for the marketplace and an agile workforce," Carlson stated. "We will continue to do the things we have always done to ensure we are poised to take full advantage of the cyclical upturn when it occurs. Our ability to deliver product reliably throughout this cycle is at the heart of our market share gains and remains a primary focus. While we will look to tighten our belts in the short term, it will not be at the expense of our long-term objectives," Carlson concluded.

R&D Tax Credit Affects EPS

In September, Sun completed an assessment of available R&D tax credits for tax years 2004-07, which resulted in a tax benefit of \$900K. This was offset by professional fees of \$150K (net of tax) related to the assessment. The overall effect was additional net income of \$750K, or \$0.045 per share, in the third quarter. This amount was not included in the third quarter estimate provided by management on August 5, 2008.

Outlook

2008 fourth quarter sales are estimated to be approximately \$34 million and earnings per share are estimated to be in the range of \$0.20 to \$0.22. This would represent a decrease of approximately 18% in sales and 32% in earnings per share over the same period last year.

2008 year-end sales are estimated to be approximately \$180 million, an 8% increase compared to 2007. Earnings per share for 2008 are estimated to be between \$1.60 and \$1.62, up approximately 20% over last year.

FORWARD-LOOKING INFORMATION

Certain oral statements made by management from time to time and certain statements contained herein that are not historical facts are "forward-looking statements" within the meaning of Section 21E of the Securities Exchange Act of 1934 and, because such statements involve risks and uncertainties, actual results may differ materially from those expressed or implied by such forward-looking statements. Forward-looking statements, including those in Management's Discussion and Analysis of Financial Condition and Results of Operations are statements regarding the intent, belief or current expectations, estimates or projections of the Company, its Directors or its Officers about the Company and the industry in which it operates, and assumptions made by management, and include among other items, (i) the Company's strategies regarding growth, including its intention to develop new products; (ii) the Company's financing plans; (iii) trends affecting the Company's financial condition or results of operations; (iv) the Company's ability to continue to control costs and to meet its liquidity and other financing needs; (v) the declaration and payment of dividends; and (vi) the Company's ability to respond to changes in customer demand domestically and internationally, including as a result of standardization. Although the Company believes that its expectations are based on reasonable assumptions, it can give no assurance that the anticipated results will occur.

Important factors that could cause the actual results to differ materially from those in the forward-looking statements include, among other items, (i) the economic cyclicality of the capital goods industry in general and the hydraulic valve and manifold industry in particular, which directly affect customer orders, lead times and sales volume; (ii) conditions in the capital markets, including the interest rate environment and the availability of capital; (iii) changes in the competitive marketplace that could affect the Company's revenue and/or cost bases, such as increased competition, lack of qualified engineering, marketing, management or other personnel, and increased labor and raw materials costs; (iv) changes in technology or customer requirements, such as standardization of the cavity into which screw-in cartridge valves must fit, which could render the Company's products or technologies noncompetitive or obsolete; (v) new product introductions, product sales mix and the geographic mix of sales nationally and internationally; and (vi) changes relating to the Company's international sales, including changes in regulatory requirements or tariffs, trade or currency restrictions, fluctuations in exchange rates, and tax and collection issues. Further information relating to factors that could cause actual results to differ from those anticipated is included but not limited to information under the headings Item 1. "Business," Item 1A. "Risk Factors" and Item 7. "Management's Discussion and Analysis of Financial Conditions and Results of Operations" in the Company's Form 10-K for the year ended December 29, 2007, and "Management's Discussion and Analysis of Financial Conditions and Results of Operations" in the Company's Form 10-Q for the quarter ended September 27, 2008. The Company disclaims any intention or obligation to update or revise forward-looking statements, whether as a result of new information, future events or otherwise.
