"Third quarter sales were consistent with our forecast, with demonstrated strength in international markets," said Allen Carlson, Sun's President and CEO. "Asia/Pacific sales were up nearly 12% and Europe sales were up almost 5%. Earnings came in at the lower end of our forecast range due to higher than expected taxes of approximately \$0.01 per share."

"While North American sales were down for the quarter, longer-term indicators -- specifically U.S. and global PMI numbers -- are pointing to a more favorable macro environment," Carlson said. "The U.S. PMI index registered 56.4 for October, the fifth consecutive month that PMI has indicated expansion in the manufacturing sector. This should positively impact demand for Sun's products throughout the fourth quarter and into 2014."

"Our new factory in Sarasota is operational," Carlson continued. "We are now consolidating important functions, including manifold design and manufacturing, shipping, and the integrated package business. This will help us gain efficiencies that will allow us to better serve our customers, and provide the capacity necessary to meet demand through the next growth cycle."

Concluding, Carlson said, "We expect the fourth quarter to be a great ending to another profitable and successful year. As signals indicate, the economy is improving and we expect to head into the new year with momentum. We are poised and ready to capitalize on early-cycle opportunities. As in past cycles, our efforts will remain on satisfying customer demand, growing market share, and delivering strong financial results."

Outlook

Fourth quarter 2013 revenues are expected to be approximately \$48 million, up approximately 11% from the fourth quarter of 2012. Earnings per share are estimated to be \$0.31 to \$0.33 compared to \$0.26 in the same period a year ago. Kansas relocation costs of approximately \$0.01 per share are included in the fourth quarter estimate.

For the year, revenues are expected to be approximately \$204 million, similar to last year. Earnings per share are estimated to be \$1.44 to \$1.46 for 2013, compared to earnings per share of \$1.43 in the prior year.
