# **NEMUS Bioscience Announces Appointment of Douglas S. Ingram, Former President of Allergan, to Its Board of Directors**

## **Former President of Allergan Is Appointed as Vice Chairman**

COSTA MESA, CA -- (Marketwired) -- 06/01/15 -- NEMUS Bioscience, Inc.(OTCQB: NMUS) announced the appointment of Douglas S. Ingram, former President of Allergan Inc., to its Board of Directors in the newly created role of Vice Chairman. Mr. Ingram has also agreed to and has been appointed to serve as Chair of the Compensation and Compliance Committee of the Board of Directors.

Mr. Ingram brings nearly 20 years of pharmaceutical leadership experience to the NEMUS board. As President of Allergan, Mr. Ingram reported directly to its CEO and led the company's global commercial operations, with responsibility for the company's broad portfolio of pharmaceutical, consumer and medical device products, including leading ophthalmology products. On March 17, 2015, Allergan was acquired by Actavis plc. With the acquisition, Mr. Ingram assumed the role of special advisor to the CEO of Actavis. During his tenure as President of Allergan, Mr. Ingram led a team that effected a major restructuring of the company, reducing expenses by over \$500 million dollars while driving enhanced sales and earnings growth, all of which significantly improved the market capitalization of the company. Prior to his role as President, Mr. Ingram had served as Executive Vice President and President, Europe, Africa and Middle East (EAME) of Allergan. In this role, he was responsible for Allergan's regional pharmaceutical and medical device operations, with a focus on strategic planning, sales and marketing, and general management. Prior to leading the EAME region, Mr. Ingram served as Executive Vice President and Chief Administrative Officer. During Mr. Ingram's tenure in this role, at various times, he led Allergan's Global Legal Affairs, Compliance, Internal Audit and Internal Controls, Human Resources, Regulatory Affairs and Safety, and Global Corporate Affairs and Public Relations departments. Mr. Ingram also served as Allergan's Secretary and Chief Ethics Officer from July 2001 to July 2010.

Prior to joining Allergan, Mr. Ingram was an attorney at Gibson, Dunn & Crutcher LLP from 1988 to 1996. Mr. Ingram received his Juris Doctorate from the University of Arizona in 1988, graduating *summa cum laude* and Order of the Coif.

Cosmas N. Lykos, Co-founder and Chairman of the Board for NEMUS, stated, "We are very excited that Doug has agreed to join the NEMUS board. Doug brings tremendous leadership and therapeutic area expertise to the NEMUS team. In recognition of Doug's experience, he will assume the newly created position of Vice Chairman and Chair the Compensation and Compliance Committee."

"NEMUS, working with the University of Mississippi, has developed a promising new option in glaucoma. I look forward to helping NEMUS advance this first-in-class therapy that, if successful, will bring new treatment alternatives to the medical community and improve patient lives," stated Mr. Ingram.

NEMUS is a biopharmaceutical company focused on the discovery, development and commercialization of cannabis-based therapeutics. The Company has licensed a novel compound from and is currently the sole partner of the University of Mississippi for the development and commercialization of drugs derived from cannabis extracts, or cannabinoids, and the realization of this partnership will depend on the successful navigation of the complex regulatory framework for the cultivation and handling of cannabis in the United States. The University of Mississippi has held the only contract to cultivate cannabis for research purposes on behalf of the Federal Government since 1968. NEMUS is developing the lead compound, NB1111, for the treatment of glaucoma.

About NEMUS Bioscience, Inc.

The Company is a biopharmaceutical company, headquartered in Costa Mesa, California, focused on the discovery, development, and commercialization of cannabis-based therapeutics for global markets with significant unmet medical needs. Utilizing certain proprietary technology licensed from the University of Mississippi, NEMUS is working to develop novel ways to deliver cannabis-based drugs for specific indications, with the aim of optimizing the clinical effects of such drugs, while limiting the potential adverse events. NEMUS's strategy is not limited to the sole use of either natural or synthetic inputs. The Company is led by a highly qualified team of executives with decades of biopharmaceutical, drug-development and public company experience.

### Forward Looking Statements

Statements in this document that are not descriptions of historical facts are forward-looking statements that are based on management's current expectations and assumptions and are subject to risks and uncertainties. If such risks or uncertainties materialize or such assumptions prove incorrect, our business, operating results, financial condition and stock price could be materially negatively affected. In some cases, forward-looking statements can be identified by terminology including "goal," "focus," "aims," "believes," "can," "challenge," "predictable," "will," or the negative of these terms or other comparable terminology. We operate in a rapidly-changing environment and new risks emerge from time to time. As a result, it is not possible for our management to predict all risks, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements the Company may make. Factors that could cause actual results to differ materially include, but are not limited to, changes in the Company's business; general economic, industry and market sector conditions; the ability to obtain additional financing; the ability to manage the Company's growth; the ability to develop and market new products; competitive factors in the market(s) in which the Company operates; and other events, factors and risks disclosed from time to time in the Company's filings with the Securities and Exchange Commission. The Company expressly disclaims any obligations or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein

to reflect any change in the Company's expectations with respect thereto or any change in events, conditions or circumstances on which any statement is based.
