Personnel Update

Nicolas Chaillan has transitioned from his role as CTO for personal reasons, and is no longer with BigBear.ai. The outstanding Ask Sage team, and the Ask Sage platform, continue to be a part of BigBear.ai serving our mission customers, warfighters, and national security interests with secure, model-agnostic generative AI. Nicolas will support a smooth transition and provide technical advice to ensure continuity for our customers using the platform. We wish Nic all the best in his future endeavors.
