Capstone Energy+ to Participate in 15th Annual Needham Virtual Industrial Tech, Robotics, & Power 1x1 Conference

LOS ANGELES--(BUSINESS WIRE)-- [Capstone Energy+, Inc.](#) (NASDAQ: CEPL) (“**Capstone**” or the “**Company**”), a leading provider of behind-the-meter clean microturbine energy solutions for industrial and commercial businesses, as well as solutions designed for emerging data center applications, today announced that members of its management team are scheduled to participate in the Needham Virtual Industrial Tech, Robotics, & Power 1x1 Conference.

Date: August 18, 2026

Location: Virtual

Format: one-on-one meetings

Vince Canino, President & Chief Executive Officer and Candice Graves, Chief Accounting Officer, will represent Capstone Energy+ at the conference.

About Capstone Energy+

For nearly four decades, Capstone Energy+ has designed, developed, and delivered proven behind-the-meter, on-site energy solutions that help businesses operate with certainty in an increasingly constrained power environment. Our evolution from “Green” to “Plus” reflects who we are today, delivering clean, innovative energy solutions that go beyond electricity.

Capstone Energy+: On Site. On Demand. Always On.

With more than 10,800 units shipped across 89 countries through our global distributor network, Capstone provides highly reliable, low-maintenance, fuel-flexible power systems engineered for mission-critical operations. Built on our core 30kW, 65kW, and 200kW microturbine platforms, our scalable multi-megawatt solutions are designed for rapid deployment, continuous operation, and simplified maintenance.

Capstone Energy+ serves critical industries including data centers, hospitals, agriculture, and industrial facilities where uptime and energy certainty are essential. Beyond power generation, our solutions support the circular economy by converting waste streams into usable fuel and capturing waste heat to produce valuable thermal energy with a lower carbon footprint.

To support evolving customer needs, Capstone also offers flexible Energy as a Service solutions, including power purchase or energy service agreements (PPAs/ESAs), leasing,

rentals, and embedded service contracts (ESCs) designed to reduce upfront costs, accelerate deployment, and provide life-cycle cost predictability.

Our modular plug-and-play architecture enables customers to scale quickly, reduce integration risk, and adapt to growing energy demands with resilient, always-available power solutions.
