Non-GAAP Financial Measures

This earnings release presents adjusted EPS attributable to Equifax which is diluted EPS attributable to Equifax adjusted (to the extent noted above for different periods) for acquisition-related amortization expense, net of tax, acquisition-specific transaction and due diligence expense, as well as integration expense through Q1 2017 following the closure of the acquisition, the adjustment of redeemable noncontrolling interest that reflects a redemption value in excess of fair value, the income tax effects of stock awards that are recognized upon vesting or settlement and adjustments for uncertain tax positions related to the recent settlement of an income tax audit. This earnings release also presents adjusted EBITDA and adjusted EBITDA margin which is defined as consolidated net income attributable to Equifax plus net interest expense, income taxes, depreciation and amortization, and also excludes certain one-time items. These are important financial measures for Equifax but are not financial measures as defined by GAAP.

These non-GAAP financial measures should be reviewed in conjunction with the relevant GAAP financial measures and are not presented as an alternative measure of net income or EPS as determined in accordance with GAAP.

Reconciliations of these non-GAAP financial measures to the most directly comparable GAAP financial measures and related notes are presented in the Q&A. This information can also be found under "Investor Relations/Financial Information/Non-GAAP Financial Measures" on our website at www.equifax.com.

Forward-Looking Statements

This release contains forward-looking statements and forward-looking information. These statements can be identified by expressions of belief, expectation or intention, as well as statements that are not historical fact. These statements are based on certain factors and assumptions including with respect to foreign exchange rates, expected growth, results of operations, performance, business prospects and opportunities and effective tax rates. While the company believes these factors and assumptions to be reasonable based on information currently available, they may prove to be incorrect.

Several factors could cause actual results to differ materially from those expressed or implied in the forward-looking statements, including, but not limited to actions taken by us, including restructuring or strategic initiatives (including capital investments or asset acquisitions or dispositions), as well as from developments beyond our control, including, but not limited to, changes in worldwide and U.S. economic conditions that materially impact consumer spending, consumer debt and employment and the demand for Equifax's products and services. Other risk factors include adverse or uncertain economic conditions and changes in credit and financial markets; economic, political and other risks associated with international sales and operations; risks relating to illegal first party efforts to access data or other cybersecurity or physical security breaches; changes in, and the effects of, laws and regulations and government policies governing our business, including, without limitation, our examination and supervision by the Consumer Financial Protection Bureau ("CFPB"), a federal agency that holds primary responsibility for the regulation of consumer protection with respect to financial products and services in the U.S., oversight by the U.K. Financial Conduct Authority and Information Commissioner's Office of our debt collections services and core credit reporting businesses in the U.K. and oversight by the Office of Australian

Information Commission, the Australian Competition and Consumer Commission and other regulatory entities of our credit reporting business in Australia; federal or state responses to identity theft concerns; potential adverse developments in new and pending legal proceedings or government investigations, including investigations or examinations undertaken by the CFPB, State Attorneys General or other governmental agencies; our ability to successfully develop and market new products and services, respond to pricing and other competitive pressures, complete and integrate acquisitions and other investments and achieve targeted cost efficiencies; timing and amount of capital expenditures; changes in capital markets and corresponding effects on the company's investments and benefit plan obligations; foreign currency exchange rates and earnings repatriation limitations; and the decisions of taxing authorities, all of which could affect our effective tax rates. A summary of additional risks and uncertainties can be found in our Annual Report on Form 10-K for the year ended December 31, 2016, including without limitation under the captions "Item 1. Business -- Governmental Regulation" and "-- Forward-Looking Statements" and "Item 1A. Risk Factors," and in our other filings with the U.S. Securities and Exchange Commission. Forward-looking statements are given only as at the date of this release and the company disclaims any obligation to update or revise the forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

Common Questions & Answers (Unaudited)

(Dollars in millions)

1. Can you provide a further analysis of operating revenue by operating segment?

Operating revenue consists of the following components:

| <i>(In millions)</i> | Three months ended June 30, | | | | |
|----------------------------------|------------------------------------|-------------|------------------|-----------------|-----------------------------------|
| Operating revenue: | 2017 | 2016 | \$ Change | % Change | Local Curren % Change* |

nm - not meaningful.

2. What was the currency impact on the foreign operations?

The U.S. dollar impact on operating revenue is as follows:

| <i>(In millions)</i> | Three months ended June 30, 2017 | |
|----------------------|---|----------|
| | Operating Revenue | |
| | Amount | % |

| | | |
|---------------------------|----------|--------|
| Asia Pacific | \$ 1.0 | 1 % |
| Europe | (7.0) | (10) % |
| Latin America | (0.8) | (2) % |
| Canada | (1.5) | (5) % |
| Global Consumer Solutions | (1.4) | (1) % |
| Total | \$ (9.7) | (1) % |

3. What drove the fluctuation in the effective tax rate?

Our effective income tax rate was 30.9% and 34.0% for the three months ended June 30, 2017 and June 30, 2016, respectively. The decrease in our effective income tax rate is primarily attributable to the adoption of the new stock-based compensation guidance we prospectively adopted in the first quarter of 2017 that requires the recognition of the income tax effects of awards in the income statement when the awards vest or are settled. These amounts were previously recognized in additional paid-in-capital. We recognized a \$4.8 million tax benefit related to the accounting change in the second quarter of 2017.

(1) During the second quarter of 2017, we recorded acquisition-related amortization expense of certain acquired intangibles of \$41.8 million (\$34.2 million, net of tax). We calculate this financial measure by excluding the impact of acquisition-related amortization

expense and including a benefit to reflect the significant cash income tax savings resulting from the income tax deductibility of amortization for certain acquired intangibles. The \$7.6 million of tax is comprised of \$13.8 million of tax expense net of \$6.2 million of a cash income tax benefit. During the second quarter of 2016, we recorded acquisition-related amortization expense of certain acquired intangibles of \$47.1 million (\$37.9 million, net of tax). The \$9.2 million of tax is comprised of \$15.4 million of tax expense net of \$6.2 million of a cash income tax benefit.

(2) During the second quarter of 2016, we recorded \$6.5 million (\$3.9 million, net of tax) for Veda acquisition related amounts other than acquisition-related amortization. \$3.4 million relates to transaction and integration costs in operating income and \$3.1 million is recorded in other income and is the impact of foreign currency changes on the transaction structure. See the Notes to this reconciliation for additional detail.

(3) During the second quarter of 2017, we recorded a tax benefit of \$4.8 million related to the tax effects of deductions for stock compensation in excess of amounts recorded for compensation costs. See the Notes to this reconciliation for additional detail.

(4) During the second quarter of 2017 we recorded the tax impact of adjustments of \$7.6 million comprised of acquisition-related amortization expense of certain acquired intangibles of \$7.6 million (\$13.8 million of tax expense net of \$6.2 million of a cash income tax benefit).

During the second quarter of 2016 we recorded the tax impact of adjustments of \$11.8 million comprised of (i) acquisition-related amortization expense of certain acquired intangibles of \$9.2 million (\$15.4 million of tax expense net of \$6.2 million of a cash income tax benefit), and (ii) a tax adjustment of \$2.6 million for Veda acquisition related amounts other than acquisition related amortization.

B. Reconciliation of net income attributable to Equifax to adjusted EBITDA, excluding Veda acquisition related amounts, income taxes, interest expense, net and depreciation and amortization expense, and presentation of adjusted EBITDA margin:

(1) During the second quarter of 2016, we recorded \$6.5 million (\$3.9 million, net of tax) for Veda acquisition related amounts other than acquisition-related amortization. \$3.4 million relates to transaction and integration costs in operating income and \$3.1 million is recorded in other income and is the impact of foreign currency changes on the transaction structure. See the Notes to this reconciliation for additional detail.

Notes to Reconciliations of Non-GAAP Financial Measures to the Comparable GAAP Financial Measures

Diluted EPS attributable to Equifax is adjusted for the following items:

Acquisition-related amortization expense, net of tax- We calculate this financial measure by excluding the impact of acquisition-related amortization expense and including a benefit to reflect the material cash income tax savings resulting from the income tax deductibility of amortization for certain acquired intangibles. These financial measures are not prepared in conformity with GAAP. Management believes excluding the impact of amortization expense is useful because excluding acquisition-related amortization, and other items that are not comparable, allows investors to evaluate our performance for different periods on a more comparable basis. Certain acquired intangibles result in material cash income tax savings which are not reflected in earnings. Management believes that including a benefit to reflect the cash income tax savings is useful as it allows investors to better value Equifax. Management makes these adjustments to earnings when measuring profitability, evaluating performance trends, setting performance objectives and calculating our return on invested capital.

Veda acquisition related amounts for transaction and due diligence expenses incurred as a direct result of the acquisition, as well as integration expense in the first year following the closure of the acquisition - During the second quarter of 2017, we did not exclude any amounts related to the Veda acquisition transaction charges. Management believes excluding this charge is useful as it allows investors to evaluate our performance for different periods on a more comparable basis. Management makes these adjustments to net income when measuring profitability, evaluating performance trends, setting performance objectives and calculating our return on invested capital. This is consistent with how management reviews and assesses Equifax's historical performance and is useful when planning, forecasting and analyzing future periods.

Income tax effects of stock awards that are recognized upon vesting or settlement- During the second quarter of 2017, we recorded a tax benefit of \$4.8 million related to the tax effects of deductions in excess of compensation costs in accordance with newly adopted guidance. Management believes excluding this tax effect from financial results provides meaningful supplemental information regarding our financial results for the three months ended June 30, 2017, as compared to the corresponding period in 2016, because this amount is non-operating and relates to income tax benefits or deficiencies for stock awards recognized when tax amounts differ from recognized stock compensation cost. This is consistent with how management reviews and assesses Equifax's historical performance and is useful when planning, forecasting and analyzing future periods.

Adjusted EBITDA and Adjusted EBITDA margin, excluding the Veda acquisition related amounts - Management defines adjusted EBITDA as consolidated net income attributable to Equifax plus net interest expense, income taxes, depreciation and amortization, and also excludes certain one-time items. Management believes the use of adjusted EBITDA and adjusted EBITDA margin allows investors to evaluate our performance for different periods on a more comparable basis.
