FORWARD LOOKING STATEMENTS

Certain of the comments made in this presentation and in the question and answer session that follows may contain forward-looking statements in relation to operations, financial condition and operating results of MGP Ingredients, Inc. and such statements involve a number of risks and uncertainties. Forward looking statements are usually identified by or are associated with such words as “intend,” “plan,” “believe,” “estimate,” “expect,” “anticipate,” “hopeful,” “should,” “may,” “will,” “could,” “encouraged,” “opportunities,” “potential,” and/or the negatives or variations of these terms or similar terminology.

These statements reflect management’s current beliefs and estimates of future economic circumstances, industry conditions, Company performance, and Company financial results and are not guarantees of future performance. All such forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. Important factors that could cause actual results to differ materially from our expectations include, among others: (i) the ability to realize the anticipated benefits of the acquisition of Luxco; (ii) the ability to successfully integrate the businesses; (iii) disruption from the acquisition of Luxco making it more difficult to maintain business and operational relationships; and (iv) significant transaction costs and unknown liabilities. Additional factors that could cause results to differ materially include, among others, (i) disruptions in operations at our Atchison facility, our Indiana facility, or any Luxco facility, (ii) the availability and cost of grain and flour, and fluctuations in energy costs, (iii) the effectiveness of our grain purchasing program to mitigate our exposure to commodity price fluctuations, (iv) the effectiveness or execution of our strategic plan, (v) potential adverse effects to operations and our system of internal controls related to the loss of key management personnel, (vi) the competitive environment and related market conditions, (vii) the impact of the COVID-19 pandemic, (viii) the ability to effectively pass raw material price increases on to customers, (ix) our ability to maintain compliance with all applicable loan agreement covenants, (x) our ability to realize operating efficiencies, (xi) actions of governments, and (xii) consumer tastes and preferences.

For further information on these and other risks and uncertainties that may affect our business, including risks specific to our Distillery Products, Branded Spirits, and Ingredient Solutions segments, see Item 1A. Risk Factors of our Annual Report on Form 10-K for the year ended December 31, 2021.

Non-GAAP Financial Measures

In addition to providing financial information in accordance with U.S. GAAP, the company provides certain non-GAAP financial measures that are not in accordance with, or alternatives for, GAAP. In addition to the comparable GAAP measures, MGP has disclosed adjusted operating income, adjusted income before taxes, adjusted net income, adjusted MGP earnings, and basic and diluted adjusted earnings per share and adjusted EBITDA. The presentation of non-GAAP financial measures should be reviewed in conjunction with operating income, income before taxes, net income, net income attributable to common shareholders and basic and diluted earnings per share computed in accordance with U.S. GAAP and should not be considered a substitute for these GAAP measures. The non-GAAP adjustments referenced in the section entitled “Reconciliation of Selected GAAP Measures to Non-GAAP Measures,” take into account the impacts of items that are not necessarily ongoing in nature and/or predictive of the Company’s operating trends. We believe that these non-GAAP measures provide useful information to investors regarding the company’s performance and overall results of operations. In addition, management uses these non-GAAP measures in conjunction with GAAP measures when evaluating the Company’s operating results compared to prior periods on a consistent basis, assessing financial trends and for forecasting purposes. Non-GAAP financial measures may not provide information that is directly comparable to other companies, even if similar terms are used to identify such measures. The schedules attached at the end of the presentation provide a full reconciliation of these non-GAAP financial measures to their most directly comparable U.S. GAAP financial measure.

MISSION STATEMENT

Secure our future by consistently delivering superior financial results by more fully participating in all levels of the alcohol and food ingredients segments for the betterment of our shareholders, employees, partners, consumers and communities.

DISTILLERY PRODUCTS

MGP HAS IDENTIFIED FIVE STRATEGIES TO CONTINUE DELIVERING LONG-TERM GROWTH WITHIN THE DISTILLERY PRODUCTS SEGMENT

Distillery Products Growth Strategy

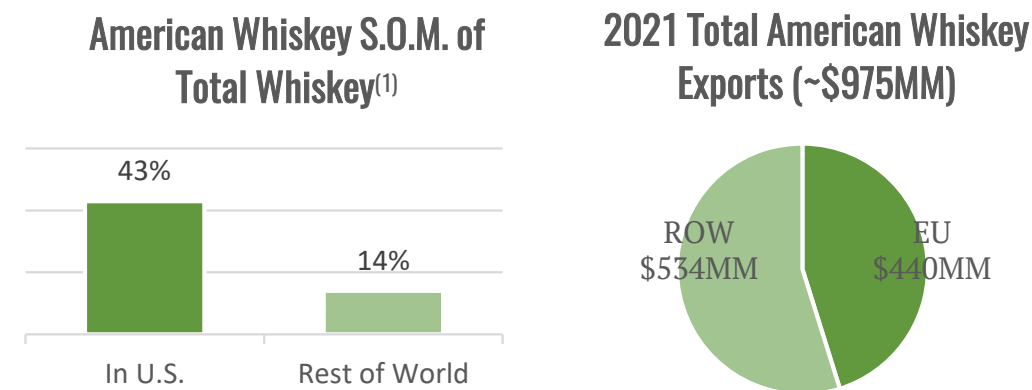

- 1. Focused Migration Away From Industrial Alcohol To White Beverage Alcohol
- 2. Continue Cultivating Multi-national And Craft Customers For Aged Whiskey Sales
- 3. Enhance Offerings To Become A Beverage Alcohol “Solutions Provider”
- 4. Develop Export Market For Aged Brown Goods
- 5. Attract Control Label Customers To Boost Overall Brown Goods Growth

Distillery Products Gross Profit Ladder

American Whiskey is Underdeveloped Outside U.S.

- Despite current tariffs, exports expected to be a key driver of long-term growth, particularly in the European Union

INGREDIENT SOLUTIONS

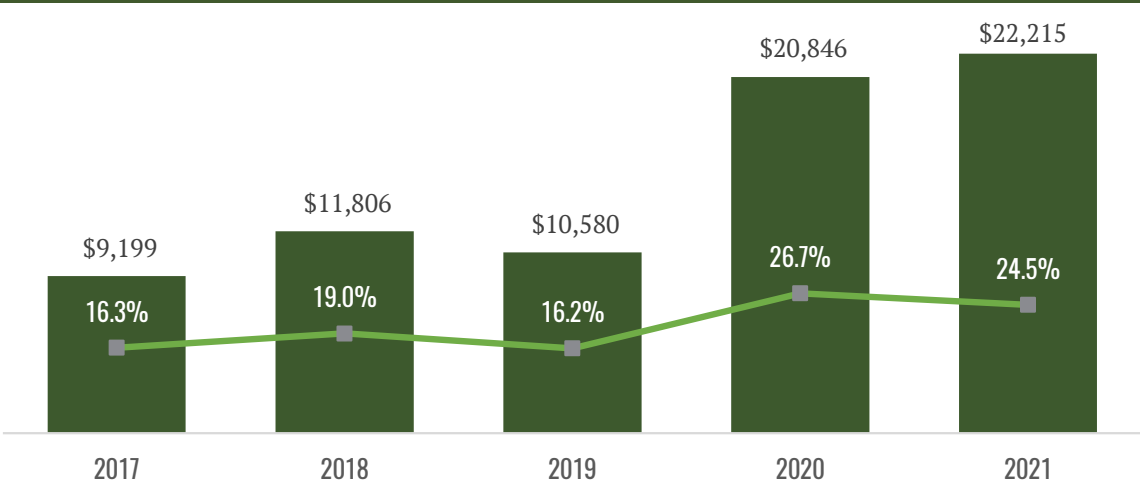

MGP IS A LEADING SUPPLIER OF SPECIALTY WHEAT STARCHES & PROTEINS

2021 Total Revenue of \$90,650

Historical Gross Profit and Margin (%)

14 All figures in thousands

Products consist of the following:

- **Specialty Wheat Starches:** Premium wheat starches sold to food processors and distributors, a substantial portion of which is altered for special applications such as improving tastes and textures or improving the nutritional profile
 - Fibersym® is expertly modified to add dietary fiber in foods while reducing calories and net carbs on labels
- **Specialty Wheat Proteins:** Derived from vital wheat gluten for food applications; competes with other ingredients and modified proteins, primarily soy protein
 - Proterra® is an emerging textured plant protein that is a premium meat replacement solution.
 - Arise® improves functional texture and softness in baked goods while increasing protein content in foods.
- **Commodity Wheat Starches:** Non-specialized product with non-food and food applications, which primarily competes with corn starch
- **Commodity Wheat Proteins:** Also known as vital wheat gluten, this product represents a free-flowing light tan powder, containing 70 – 80% protein, which is used by bakeries and food processors to improve the nutritional content, texture, strength, shape, and other aspects of their product

INGREDIENT SOLUTIONS

MGP IS STRONGLY POSITIONED TO SERVE GROWING SPECIALTY PLANT-BASED MARKETS

- Developing the talent to support our growth
- Launching MGP “House of Zero Loss” operational excellence initiative

ENVIRONMENTAL & SUSTAINABILITY INITIATIVES

RESPONSIBLY GROW OUR BRANDS AND PRODUCTS, WHILE FOSTERING A SUSTAINABLE FUTURE FOR THE ENVIRONMENT ON WHICH WE DEPEND

As a small public company, MGP has begun its ESG journey

As an organization, we are making our own commitments to:

- Promoting a positive role for alcohol
- Promoting diversity, equity and inclusion initiatives
- Preserving natural resources and promoting environmental sustainability
- Making a positive contribution in our communities

Environmental Commitments

Environmental Compliance

- 100% regulatory and reporting compliance

Environmental Sustainability

Focus Areas: Water, Waste, Energy, Greenhouse Gas Emission, Packaging and Reporting

- Improve water usage efficiency
- Improve energy usage efficiency
- Reduce waste going into landfill
- Promote sourcing of packaging materials from sustainable sources
- Evaluate potential options to reduce greenhouse gas emission
- Prepare an environmental sustainability report for CY 2022 adopting GRI 300 standard

CAPITAL ALLOCATION PRIORITIES REMAIN FOCUSED ON GROWTH OPPORTUNITIES

Capital Allocation Priorities

M&A

- M&A will continue to be an important lever to increase our capabilities, margin up our portfolios, and accelerate growth in all segments.

Whiskey Put-Away

- With our inventory in balance, matching put-away with growing future distillery products sales and branded spirits sales is a priority.

Capital Expenditures

- In addition to maintenance and EHS capital, projects contributing to growth and strengthening our competitive position (high payback) will continue to be assessed.

Dividends

- Achieved a consistent quarterly dividend to approximately 22 million shares.
- Dividends are viewed as an important way to share the success of the company with shareholders; assessed quarterly with the board.

Debt Pay Down

- Maintaining adequate cash availability to fund M&A, whiskey put-away and capex is essential for continued growth investment and company success.
