We believe our 2019 results continue to validate the strength of our value proposition in the hard-surface flooring industry. As we celebrate our 20<sup>th</sup> anniversary as a company, I would like to thank all our associates for their hard work and their exceptional service to our customers and look forward to an even better fiscal 2020."

#### Comparable Store Sales

Comparable store sales refer to period-over-period comparisons of our net sales among the comparable store base, which has historically been when customers obtained possession of their product. Starting in fiscal 2018, when the new revenue recognition standard was adopted, our comparable store sales refer to period-over-period comparisons of our net sales based on when the customer obtains control of the product, which is typically at the time of sale and may be slightly different than our historically reported net sales due to timing of when final delivery of the product has occurred. A store is included in the comparable store sales calculation on the first day of the thirteenth full fiscal month following a store's opening, which is when we believe comparability has been achieved. Since our ecommerce sales are fulfilled by individual stores, they are included in comparable store sales only to the extent the fulfilling store meets the above mentioned store criteria. Changes in our comparable store sales between two periods are based on net sales for stores that were in operation during both of the two periods. Any change in square footage of an existing comparable store, including remodels and relocations, does not eliminate that store from inclusion in the calculation of comparable store sales. Stores that are closed temporarily and relocated within their primary trade areas are included in comparable store sales. Additionally, any stores that were closed during the current or prior fiscal year are excluded from the definition of comparable stores.

Our fiscal 2020 year, which will end on December 31, 2020, will include a 53rd week. When presenting comparable store sales for fiscal 2020, we have excluded the last week of fiscal 2020.

#### **Non-GAAP Financial Measures**

Adjusted net income, Adjusted diluted EPS, EBITDA and Adjusted EBITDA (which are shown in the reconciliations below) are presented as supplemental measures of financial performance that are not required by, or presented in accordance with, accounting principles generally accepted in the United States ("GAAP"). We define Adjusted net income as net income adjusted to eliminate the impact of certain items that we do not consider indicative of our core operating performance and the tax effect related to those items. We define Adjusted diluted EPS as Adjusted net income divided by weighted average shares outstanding. We define EBITDA as net income before interest, loss on early extinguishment of debt, taxes, depreciation and amortization. We define Adjusted EBITDA as net income before interest, loss on early extinguishment of debt, taxes, depreciation and amortization, adjusted to eliminate the impact of certain items that we do not consider indicative of our core operating performance. Reconciliations of these measures to the most directly comparable GAAP financial measure are set forth in the tables below.

Adjusted net income, Adjusted diluted EPS, EBITDA and Adjusted EBITDA are key metrics

used by management and our board of directors to assess our financial performance and enterprise value. We believe that Adjusted net income, Adjusted diluted EPS, EBITDA and Adjusted EBITDA are useful measures, as they eliminate certain items that are not indicative of our core operating performance and facilitate a comparison of our core operating performance on a consistent basis from period to period. We also use Adjusted EBITDA as a basis to determine covenant compliance with respect to our credit facilities, to supplement GAAP measures of performance to evaluate the effectiveness of our business strategies, to make budgeting decisions, and to compare our performance against that of other peer companies using similar measures. Adjusted net income, Adjusted diluted EPS, EBITDA and Adjusted EBITDA are also used by analysts, investors and other interested parties as performance measures to evaluate companies in our industry.

Adjusted net income, Adjusted diluted EPS, EBITDA and Adjusted EBITDA are non-GAAP measures of our financial performance and should not be considered as alternatives to net income or diluted EPS as a measure of financial performance, or any other performance measure derived in accordance with GAAP and they should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items. Additionally, Adjusted net income, EBITDA and Adjusted EBITDA are not intended to be measures of liquidity or free cash flow for management's discretionary use. In addition, these non-GAAP measures exclude certain non-recurring and other charges. Each of these non-GAAP measures has its limitations as an analytical tool, and you should not consider them in isolation or as a substitute for analysis of our results as reported under GAAP. In evaluating Adjusted net income, Adjusted diluted EPS, EBITDA and Adjusted EBITDA, you should be aware that in the future we will incur expenses that are the same as or similar to some of the items eliminated in the adjustments made to determine Adjusted net income, Adjusted diluted EPS, EBITDA and Adjusted EBITDA, such as stock compensation expense, loss on asset disposal, and other adjustments. Our presentation of Adjusted net income, Adjusted diluted EPS, EBITDA and Adjusted EBITDA should not be construed to imply that our future results will be unaffected by any such adjustments. Definitions and calculations of Adjusted net income, Adjusted diluted EPS, EBITDA and Adjusted EBITDA differ among companies in the retail industry, and therefore Adjusted net income, Adjusted diluted EPS, EBITDA and Adjusted EBITDA disclosed by us may not be comparable to the metrics disclosed by other companies.

Please see "Reconciliation of GAAP to Non-GAAP Financial Measures" below for reconciliations of non-GAAP financial measures used in this release to their most directly comparable GAAP financial measures.
