Telkonet Announces Second Quarter 2019 Financial Results

Revenue Ramp Continues for Third Consecutive Quarter Contributing to Record Results

Teleconference and Webcast to be Held Today at 10:00 A.M. ET

WAUKESHA, WI / ACCESSWIRE / August 13, 2019 /Telkonet, Inc. (OTCQB:TKOI), (the “Company”, “Telkonet”), creator of the EcoSmart platform of intelligent automation solutions designed to optimize comfort, energy efficiency and operational analytics in support of the emerging Internet of Things (IoT), today announced financial results for the quarter ended June 30, 2019. Telkonet management will hold a teleconference to discuss these results with the financial community today at 10:00 a.m. ET/9:00 a.m. CT.

“While continued global economic uncertainty and import tariffs have had a material impact on Telkonet’s results, our continued strength in Channel growth and penetration within secondary markets have fueled the second quarters’ record revenues,” stated Jason Tienor, Telkonet’s President and Chief Executive Officer. “2019 has brought a new appetite for automation and IoT solutions to Telkonet’s targeted markets creating an enormous opportunity for growth.”

Operating and Financial Highlights Comparison for the Three and Six Months Ended June 30, 2019:

- For the three and six month periods, total revenues increased 20% and 38% respectively when compared to prior year periods.
- For the three and six month periods, revenues generated via the Company’s value added resellers and distribution partners increased 30% and 12% respectively when compared to prior year periods.
- International revenues as a percentage of total revenues grew 11% to \$0.9 million when compared to the prior year period year to date. The significant year-over-year increase was primarily driven by one contract for a modular home project sold through an OEM partner.
- Phase 1 completion of a domestic, military housing project increased governmental revenues to 13% of total revenues when compared to the prior year six month period.
- Backlog was approximately \$3.6 million at June 30, 2019.
- Implementation of portfolio pricing measures to offset near-term tariff impact and improve future product margins.
- Quarterly revenue per employee increased by 18% to \$74k per employee compared to the three months ended June 30, 2018.

“Telkonet’s current results paired with our strong backlog and verbal commitments strengthen the company’s outlook for full year 2019 while continued expansion of our Channel pipeline demonstrates our potential for sustained future growth,” continued Tienor.

“In addition, through sustained focus on product and industry strengths, we look forward to capitalizing on the expansion of our core business while recognizing new markets for growth.

NON-GAAP Financial Measures

Telkonet will post to the Company's investor relations website (www.telkonet.com) any reconciliation of differences between non-GAAP financial information that may be required in connection with issuing the Company's financial results.

The Company, as is common in its industry, uses adjusted EBITDA from continuing operations, a non-GAAP measurement gauge to demonstrate earnings exclusive of interest and non-cash events. The Company manages business based on cash flows. The Company, in its daily management of business affairs and analysis of monthly, quarterly and annual performance, makes decisions based on cash flows, not on the amortization of assets obtained through historical activities. The Company, in managing current and future affairs, cannot affect the amortization of the intangible assets to any material degree, and therefore uses adjusted EBITDA from continuing operations as its primary management guide. Adjusted EBITDA from continuing operations is not, and should not be considered, an alternative to net income (loss), income (loss) from continuing operations, or any other

measure for determining operating performance of liquidity, as determined under accounting principles generally accepted in the United States (GAAP). In assessing the overall health of its business for the quarters ended June 30, 2019 and 2018, the Company excluded items in the following general category described below:

- *Stock-based compensation:* The Company believes that because of the variety of equity awards used by companies, varying methodologies for determining stock-based compensation and the assumptions and estimates involved in those determinations, the exclusion of non-cash stock-based compensation enhances the ability of management and investors to understand the impact of non-cash stock-based compensation on our operating results. Further, the Company believes that excluding stock-based compensation expense allows for a more transparent comparison of its financial results to the previous period.

Adjusted EBITDA from continuing operations and other non-GAAP financial measures should not be considered in isolation from, or as a substitute for, a measure of financial performance prepared in accordance with GAAP. Further, investors are cautioned that there are inherent limitations associated with the use of the non-GAAP financial measure as an analytical tool. In particular, the non-GAAP financial measure is not based on a comprehensive set of accounting rules or principles and many of the adjustments to the GAAP financial measure reflect the exclusion of items that are recurring and will be reflected in the Company's financial results for the foreseeable future. The Company compensates for these limitations by providing specific information in the reconciliation included in this press release regarding the GAAP amounts excluded from the non-GAAP financial measure.
