# Tecogen Receives InVerde Order from Data Center in CT

**BILLERICA, MA / [ACCESS Newswire](#) / March 17, 2025 / [Tecogen Inc.](#)** (OTCQX:TGEN), a clean energy company providing ultra-efficient and clean on-site power, heating, and cooling equipment, is pleased to announce the sale of an InVerde unit to a cloud storage data center in CT. Electricity costs are a significant expense for a data center. Faced with increasing utility rates, this customer chose to take control of their operating expenses using on-site generation. After considering other solutions including fuel cells, and microturbines, the customer chose the InVerde because of its ROI.

"We are pleased that this data center chose our InVerde after comparing it against competing options." said Abinand Rangesh, Chief Executive Officer at Tecogen. "This sale is another proof point that our products offer tremendous value to data centers. We expect many more existing and new data centers to adopt our solutions to combat a lack of electrical capacity and soaring energy costs."

## About Tecogen

[Tecogen Inc.](#) designs, manufactures, installs, and maintains high efficiency and ultra-clean cogeneration products including combined heat and power systems, air conditioning systems, and high-efficiency water heaters for residential, commercial, recreational, and industrial applications. The company's cost efficient, reliable, and environmentally friendly products for energy production nearly eliminate criteria pollutants and significantly reduce customers' carbon footprint. In business for over 35 years, Tecogen has shipped more than 3,200 units, supported by an established network of engineering, sales, and service personnel in key markets in North America. ## Forward Looking Statements

This press release contains "forward-looking statements" which may describe strategies, goals, outlooks or other non-historical matters, or projected revenues, income, returns or other financial measures, that may include words such as "believe," "expect," "anticipate," "intend," "plan," "estimate," "likely" or "may" and similar expressions intended to identify forward-looking statements. These statements are only predictions and involve known and unknown risks, uncertainties and other factors that may cause our actual results to differ materially from those expressed or implied by such forward-looking statements. Forward-looking statements speak only as of the date on which they are made, and we undertake no obligation to update or revise any forward-looking statements.

In addition to the Risk Factors described in our Annual Report on Form 10-K and our Quarterly Reports on Form 10-Q under "Risk Factors," factors that could cause our actual

results to differ materially from past and projected future results include the impact of renewable energy biases on demand for our products, the availability of incentives, rebates and tax benefits relating to our products, changes in the regulatory environment, competing technological developments, and the availability of financing to fund our operations and growth.
