

# Salem Communications Announces a 7.8% Increase in First Quarter 2007 Total Revenue

CAMARILLO, Calif .-- (BUSINESS WIRE)--

Salem Communications Corporation (Nasdaq:SALM), a leading U.S. radio broadcaster, Internet content provider, magazine and book publisher targeting audiences interested in content related to faith, family and conservative values, today announced results for the three month period ended March 31, 2007.

Commenting on the company's results, Edward G. Atsinger III, president and CEO, said, "We achieved total revenue growth of 7.8% in the first quarter of 2007 with net broadcasting revenue growing 3.4% to \$50.4 million and the Internet and publishing businesses growing revenue 73.9% to \$5.7 million. Within the radio business, block programming revenue increased 8.8% and advertising revenue decreased 1.6%. This advertising decline is principally attributable to high sales staff vacancies, which we are working to fill, and the continued softness of the radio advertising market. The solid growth in non-broadcast media is a direct result of our strategic emphasis on developing new media businesses that exploit the promotional capability and content resources of our radio assets."

#### Regulation G

Station operating income, non-broadcast operating income, EBITDA and Adjusted EBITDA are financial measures not prepared in accordance with generally accepted accounting principles ("GAAP"). Station operating income is defined as net broadcasting revenues minus broadcasting operating expenses. Non-broadcast operating income is defined as non-broadcast revenue minus non-broadcast operating expenses. EBITDA is defined as net income before interest, taxes, depreciation and amortization. Adjusted EBITDA is defined as EBITDA before loss on early redemption of long-term debt, discontinued operations (net of tax), litigation costs, gain or loss on the disposal of assets and non-cash compensation expense. In addition, Salem has provided supplemental information as an attachment to this press release, reconciling these non-GAAP financial measures to the most directly

comparable financial measures prepared in accordance with GAAP. The company believes these non-GAAP financial measures, when considered in conjunction with the most directly comparable GAAP financial measures, provide useful measures of the company's operating performance.

Station operating income, non-broadcast operating income, EBITDA and Adjusted EBITDA are generally recognized by the broadcasting industry as important measures of performance and are used by investors as well as analysts who report on the industry to provide meaningful comparisons between broadcasting. Station operating income, non-broadcast operating income, EBITDA and Adjusted EBITDA are not a measure of liquidity or of performance in accordance with GAAP, and should be viewed as a supplement to and not a substitute for, or superior to, the company's results of operations presented on a GAAP basis such as operating income and net income. In addition, Salem's definitions of station operating income, non-broadcast operating income, EBITDA and Adjusted EBITDA are not necessarily comparable to similarly titled measures reported by other companies.
