Oncolytics Biotech® Inc. Announces 2015 Second Quarter Results

CALGARY, Aug. 6, 2015 /PRNewswire/ - Oncolytics Biotech® Inc. (TSX:ONC, NASDAQ:ONCY) ("Oncolytics" or the "Company") today announced its financial results and operational highlights for the second quarter ended June 30, 2015.

"Subsequent to quarter end we announced compelling overall, one- and two-year survival data from the REO 017 study in patients with advanced pancreatic cancer treated with gemcitabine and REOLYSIN®," said Dr. Brad Thompson, President and CEO of Oncolytics. "During the quarter we also added to our growing body of evidence that REOLYSIN® contributes to the upregulation of PD-1 and PD-L1 and so may play a role in immunotherapeutic treatment of cancer."

Selected Highlights

Since April 1, 2015, selected highlights announced by the Company include:

Clinical Program

- Presentation of final data from a single arm clinical study examining the use of REOLYSIN® in combination with gemcitabine in patients with advanced pancreatic cancer (REO 017), which showed an increase in median overall survival, as well as an approximate two-fold increase in one-year survival rates, and a five-fold increase in two-year survival rates when compared to gemcitabine therapy alone as seen in historical data;
- An update on the planned registration program for REOLYSIN® including an initial focus on two indications: the neoadjuvant treatment of muscle-invasive bladder cancer and the treatment of glioblastoma;
- Activation of an Investigational New Drug Application containing the protocol titled "MC1472: Phase 1 Study of Replication Competent Reovirus (REOLYSIN®) in Combination with GM-CSF in Pediatric Patients with Relapsed or Refractory Brain Tumors";
- Presentation of data showing up regulation of PD-1 and PD-L1 from a single arm clinical study examining the use of REOLYSIN® in patients with primary glioblastomas or brain metastases (REO 013b) at the Royal Society of Medicine's Immuno-oncology: Using the Body's Own Weapons conference, held in London, UK;

Regulatory

- Granting of Orphan Drug Designation from the U.S. Food and Drug Administration (FDA) for REOLYSIN® in the treatment of gastric cancer and malignant gliomas;
- Granting of Orphan Drug Designation by the European Medicines Agency for REOLYSIN® in the treatment of pancreatic cancer;

Basic Research

- Presentation of preclinical data at the 9th International Conference on Oncolytic Virus Therapeutics in Boston, MA, including findings around REOLYSIN®'s mechanism of action and its potential in new indications including chronic lymphocytic leukemia;
- Presentation of clinical and preclinical data at the 2015 Immune Checkpoint Inhibitors meeting in Boston, MA, including content showing the combination of REOLYSIN®, GM-CSF, anti-PD-1 and anti-CTLA-4 improved survival in immune competent mice versus REOLYSIN® and GM-CSF alone, and REOLYSIN® and GM-CSF plus either one of the checkpoint inhibitors alone;
- A series of presentations made by the Company's research collaborators at the American Association for Cancer Research Annual Meeting held in Philadelphia, PA covering preclinical research in a range of

indications, with a variety of treatment combinations including REOLYSIN®;

Corporate

- Linda Hohol resigned from the Board of Directors of the Company effective August 5, 2015. Ms. Hohol has served as a Director since June 2014; and

Financial

- At June 30, 2015 the Company reported \$32.1 million in cash, cash equivalents and short-term investments. At August 5, 2015, the Company had approximately \$31.6 million in cash, cash equivalents and short-term investments.

About Oncolytics Biotech Inc.

Oncolytics is a Calgary-based biotechnology company focused on the development of oncolytic viruses as potential cancer therapeutics. Oncolytics' clinical program includes a variety of later-stage, randomized human trials in various indications using REOLYSIN[®], its proprietary formulation of the human reovirus. For further information about Oncolytics, please visit: www.oncolyticsbiotech.com.

This press release contains forward-looking statements, within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements, including the Company's belief as to the potential of REOLYSIN[®] as a cancer therapeutic; the Company's expectations as to the success of its research and development programs in 2015 and beyond, the Company's planned operations, the value of the additional patents and intellectual property; the Company's expectations related to the applications of the patented technology; the Company's expectations as to adequacy of its existing capital resources; the design, timing, success of planned clinical trial programs; and other statements related to anticipated developments in the Company's business and technologies involve known and unknown risks and uncertainties, which could cause the Company's actual results to differ materially from those in the forward-looking statements. Such risks and uncertainties include, among others, the availability of funds and resources to pursue research and development projects, the efficacy of REOLYSIN[®] as a cancer treatment, the success and timely completion of clinical studies and trials, the Company's ability to successfully commercialize REOLYSIN[®], uncertainties related to the research and development of pharmaceuticals, uncertainties related to the regulatory process and general changes to the economic environment. Investors should consult the Company's quarterly and annual filings with the Canadian and U.S. securities commissions for additional information on risks and uncertainties relating to the forward-looking statements. Investors are cautioned against placing undue reliance on forward-looking statements. The Company does not undertake to update these forward-looking statements, except as required by applicable laws.
