BioSig Technologies Announces EU Institutional Investor Roadshow

Minneapolis, MN, Jan. 30, 2017 (GLOBE NEWSWIRE) -- BioSig Technologies, Inc. (OTCQB: BSGM), a medical device company developing the PURE EP(TM) System, a proprietary platform designed to address an unmet technology need for the \$4 billion electrophysiology (EP) marketplace, is pleased to announce an institutional investor roadshow in the major EU financial centers during the week of February 27 – March 3. The roadshow features Kenneth L. Londoner, Chairman of BioSig as the Presenting Speaker and is hosted by Monaco Growth Forums CEO, Andreea Porcelli.

Mr. Londoner will be presenting at a luncheon and one-to-one meetings in London, Zurich, Geneva, Paris and Milan during that week. Please consult www.monacogrowthforums.com for the exact schedule and location of meetings. BioSig Technologies will also be presenting at Monaco Growth Forums' Tech tour U.A.E. in Dubai and Abu Dhabi on February 20 - 23.

"Our Company is proceeding with European regulatory clearance for the PURE EP System and we will continue to build commercial and investor relationships in the EU prior to launch," said Ken Londoner, Chairman of BioSig Technologies, Inc.

About BioSig Technologies

BioSig Technologies is a medical device company developing a proprietary technology platform designed to improve the \$4 billion electrophysiology (EP) marketplace (www.biosigtech.com). Led by a proven management team and a veteran, independent Board of Directors, Minneapolis-based BioSig Technologies is preparing to commercialize its PURE EP(TM) System.

BioSig's technology has been developed to address an unmet need in a large and growing market. The PURE EP System is a novel cardiac signal acquisition and display system which is engineered to assist electrophysiologists in clinical decision making during procedures to diagnose and treat patients with abnormal heart rates and rhythms. BioSig's main goal is to deliver technology to improve upon catheter ablation treatments for the prevalent and deadly arrhythmias, Atrial Fibrillation and Ventricular Tachycardia.

Data from the 2016 HRI Global Opportunities in Medical Devices & Diagnostics report shows the global Electrophysiology (EP) market revenues will grow nearly 10% annually, from currently \$4 billion to approximately \$6 billion by 2020 with accompanying procedure growth close to 10% annually, from 865,000 patients in 2015 to 1,350,000 in 2020. Procedure growth in the United States alone is projected at an 11.0% annual rate, from 250,000 in 2015 to 422,000 in 2020; accompanied by an 11.7% growth in revenues, from \$1.85 billion in 2015 to \$3.220 billion in 2020.

BioSig has partnered with Minnetronix on technology development and is working toward FDA 510(k) clearance and CE Mark for the PURE EP System. The Company has achieved proof of concept validation and tested its prototype at the University of California at Los Angeles (UCLA) Cardiac Arrhythmia Center, and has performed pre-clinical studies at Mayo Clinic in Minnesota and Mount Sinai Hospital in NY. The company continues to perform research and development studies in the form of an Advanced Research Program at Mayo Clinic which began in June 2016. Other prestigious cardiac arrhythmia centers including Texas Cardiac Arrhythmia Institute and UH Case Medical Center in Cleveland also play an important role in the PURE EP technology.

About Monaco Growth Forums, Ltd.

Monaco Growth Forums (MGF) is an exclusive, invitation-only conference highlighting growth companies seeking capital and/or greater exposure. Andreea Porcelli, MGF founder and president, has more than 20 years' experience as an international investment banker, finding investors for small cap companies on a world scale. She and her team select, by invitation-only, companies seeking international investor exposure to present and then socialize over three days with institutional fund managers, private asset managers, high net-worth individuals, and industry-related sponsors and foundations—all of whom are also exclusively invited to match MFG's highly selective criteria. www.monacogrowthforums.com
