

## Skechers Announces Record First Quarter 2022 Financial Results

LOS ANGELES--(BUSINESS WIRE)-- SKECHERS U.S.A., Inc. ("Skechers" or the "Company") (NYSE:SKX), The Comfort Technology Company<sup>TM</sup> and a global footwear leader, today announced financial results for the first guarter ended March 31, 2022.

#### **First Quarter Highlights**

- Record quarterly sales of \$1.82 billion, a year-over-year increase of 26.8%
- Wholesale sales grew 32.7%
- Direct-to-Consumer sales grew 15.7%
- Diluted earnings per share of \$0.77, a year-over-year increase of 22.2%
- Repurchased \$25 million of common stock

"First quarter sales of over \$1.8 billion are a new quarterly sales record for Skechers, and reflect our broad-based global appeal and our team's focus on successfully navigating supply chain constraints," began David Weinberg, Chief Operating Officer of Skechers. "The sales achievement was driven by increases of 33% in our Wholesale and 16% in our Direct-to-Consumer segments. By region, the growth was the result of increases of 31% in the Americas, driven by double-digit growth in the United States; 49% in EMEA, driven by strong growth across Europe; and 4% in APAC, led by 9% growth in China. Several key APAC markets faced increasing COVID-related restrictions as the quarter evolved including China. Despite the on-going pandemic and other macroeconomic headwinds, we are especially encouraged by the phenomenal growth we experienced. We believe this momentum will continue as we strive towards our goal of \$10 billion by 2026."

"As we mark our third decade in business, we couldn't be more excited about our future. In the first quarter, we achieved a new quarterly sales record, delivered the most innovative, stylish and comfortable product yet, and supported it with impactful marketing," said Robert Greenberg, Chief Executive Officer of Skechers. "Our position as the third largest footwear brand in the world is the result of exceptional global partnerships and the strong consumer demand for our products. To drive awareness, we began the year with two Skechers commercials airing around the Super Bowl featuring Willie Nelson, including one with his hit song 'On the Road Again.' We launched a new workout walking collection with two campaigns starring Brooke Burke and former NFL star Cris Carter, who joined our roster of legends, including Rusty Wallace, Tony Romo and Howie Long. We also launched Skechers campaigns featuring two powerful female brand ambassadors, Amanda Kloots and Martha Stewart. With a talented team determined to ensure our success, we believe our strategy of communicating the uniqueness of Skechers' comfort technology, style, innovation and quality products globally will continue to deliver record sales in 2022."

Three Months Ended

First quarter sales increased 26.8% as a result of a 28.7% increase in domestic sales and a 25.5% increase in international sales, primarily driven by strength in wholesale sales. Both segments experienced increases, with Wholesale increasing 32.7% and Direct-to-Consumer increasing 15.7%. On a constant currency basis, sales increased 28.7%.

Wholesale sales growth of \$308.2 million, or 32.7%, was led by increases in AMER of 41.6% and EMEA of 42.0%. Wholesale volume increased 22.7% and average selling price increased 8.6%.

Direct-to-Consumer sales growth of \$76.9 million, or 15.7%, was led by increases in EMEA of 157.3%, which lapped COVID restrictions in the prior year, AMER of 11.2% and APAC of 8.5%. Direct-to-Consumer average selling price increased 15.1% resulting from reduced promotions and higher prices.

Gross margin was 45.3%, a decrease of 250 basis points, driven by higher per unit freight costs partially offset by average selling price increases.

Operating expenses increased \$120.3 million, or 22.8%, but as a percentage of sales, improved 120 basis points to 35.6% from 36.8% in the prior year. Selling expenses increased \$16.9 million, or 18.5%, due to higher global demand creation expenditures. General and administrative expenses increased \$103.4 million, or 23.7%, due to increased volume-driven labor, and warehouse and distribution expenses.

Earnings from operations increased \$18.2 million, or 11.6%, to \$175.9 million.

Net earnings were \$121.2 million and diluted earnings per share were \$0.77, an increase of 22.2% over the prior year.

In the first quarter, the Company's effective income tax rate was essentially flat year-overyear at 20.0%.

"Skechers once again delivered exceptional results, with record first quarter sales and earnings, despite continuing challenges from the COVID pandemic," stated John Vandemore, Chief Financial Officer of Skechers. "The strength of our brand, coupled with our continued focus on investing and executing against our global growth strategy, gives us abundant confidence that achieving \$10 billion in sales by 2026 remains both an achievable objective and valuable means to drive shareholder value."

#### **Balance Sheet**

Cash, cash equivalents and investments totaled \$819.9 million, a decrease of \$220.6 million, or 21.2% from December 31, 2021, primarily reflecting increased accounts receivable from wholesale sales, particularly in the Americas.

Inventory was \$1.45 billion, a decrease of \$21.5 million or 1.5% from December 31, 2021. The slight decrease in inventory reflects lower merchandise in transit levels due to the improvement of some supply chain constraints.

#### **Share Repurchase**

During the first quarter, the Company repurchased approximately 652,000 shares of its Class A common stock for \$25.0 million. At March 31, 2022, approximately \$475.0 million remained available under the Company's share repurchase program.

#### Outlook

For the second quarter of 2022, the Company believes it will achieve sales between \$1.75 billion and \$1.80 billion and diluted earnings per share of between \$0.50 and \$0.55. Further, the Company believes that for the fiscal year 2022, it will achieve sales between \$7.2 billion and \$7.4 billion and diluted earnings per share of between \$2.75 and \$2.95.

#### **Store Count**

Reference in this press release to "Sales" refers to Skechers' net sales reported under GAAP. This announcement contains forward-looking statements that are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements may include, without limitation, Skechers' future domestic and international growth, financial results and operations including expected net sales and earnings, its development of new products, future demand for its products, its planned domestic and international expansion, opening of new stores and additional expenditures, and advertising and marketing initiatives. Forward-looking statements can be identified by the use of forward-looking language such as "believe," "anticipate," "expect," "estimate," "intend," "plan," "project," "will," "could," "may," "might," or any variations of such words with similar meanings. Any such statements are subject to risks and uncertainties that could cause actual results to differ materially from those projected in forward-looking statements. Factors that might cause or contribute to such differences include the disruption of business and operations due to the COVID-19 pandemic; delays or disruptions in our supply chain; international economic, political and market conditions including the challenging consumer retail markets in the United States and the impact of Russia's recent invasion of Ukraine; sustaining, managing and forecasting costs and proper inventory levels; losing any significant customers; decreased demand by industry retailers and cancellation of order commitments due to the lack of popularity of particular designs and/or categories of products; maintaining brand image and intense competition among sellers of footwear for consumers, especially in the highly competitive performance footwear market; anticipating, identifying, interpreting or forecasting changes in fashion trends, consumer demand for the products and the various market factors described above; sales levels during the spring, back-to-school and holiday selling seasons; and other factors referenced or incorporated by reference in Skechers' annual report on Form 10-K for the year ended December 31, 2021. Taking these and other risk factors associated with the COVID-19 pandemic into consideration, the dynamic nature of these circumstances means that what is stated in this press release could change at any time, and as a result, actual results could differ materially from those contemplated by such forward-looking statements. The risks included here are not exhaustive. Skechers operates in a very competitive and rapidly changing environment. New risks emerge from time to time and we cannot predict all such risk factors, nor can we assess the impact of all such risk factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Given these risks and uncertainties, you should not place undue reliance on forward-looking statements as a prediction of actual results. Moreover, reported results should not be considered an indication of future performance.

# SKECHERS U.S.A., INC. AND SUBSIDIARIES RECONCILIATION OF GAAP EARNINGS FINANCIAL MEASURES TO CORRESPONDING NON-GAAP FINANCIAL MEASURES (Unaudited)

#### Constant Currency Adjustment (Non-GAAP Financial Measure)

We evaluate our results of operations on both an as reported and a constant currency basis. The constant currency presentation, which is a non-GAAP measure, excludes the impact of period-over-period fluctuations in foreign currency exchange rates. We believe providing constant currency information provides valuable supplemental information regarding our results of operations, thereby facilitating period-to-period comparisons of our business performance and is consistent with how management evaluates the Company's performance. We calculate constant currency percentages by converting our current period local currency financial results using the prior-period exchange rates and comparing these adjusted amounts to our prior period reported results.
