Services provided by Ameresco included improved lighting controls, building management system and controls upgrades, steam heating improvements, make up air units and exhaust fans installations, real-time metering – demand response, general building code upgrades and more. MassArt is targeted to amass \$436,385 in annual cost savings, which will allow the university to implement additional academic and infrastructure upgrades.

Construction covered approximately 800,000 square feet across university facilities, with Ameresco leading the design, labor and material procurement, installation, testing and commissioning, measurement and verification, inspection, training and more throughout the entirety of the project.

“One of the amazing things about working with customers in the higher education space is seeing how they can improve their learning environments from the cost savings that come from clean energy

improvements,” said Pete Christakis, SVP of Construction and Operations. “We have been coordinating this project with MassArt since 2018. This is a very important step for the university’s future sustainability goals,

and we are happy to help to lead the charge.”

Ameresco’s work with MassArt is the latest addition to its high-profile education pipeline. The cleantech integrator’s expertise in providing solutions to higher education institutions consists of ongoing relationships with universities including: Northwestern University, Wellesley College, Northeastern University, The Medical University of South Carolina, Tarleton State University, Trent University and more.

About Massachusetts College of Art and Design

MassArt is grounded in history, creativity, and foresight. Every era requires vision as part of its progress, and MassArt was founded on a vision of the future that included all citizens in its gaze. Started as a revolutionary idea, MassArt continues to look toward what is extraordinary and cutting-edge - and who will lead the way - in art, design, and education. Our students engage deeply with the world outside their studios and classrooms, and our community is broad, influential, and encompassing. MassArt is the Commonwealth’s art and design school, a place with wide reach, where the hardest, most important, and most rewarding work of our students, staff, and affiliates, is to keep our eyes open and continue expanding our vision.

The announcement of completion of a customer’s project contract is not necessarily indicative of the timing or amount of revenue from such contract, of the company’s overall revenue for any particular period or of trends in the company’s overall total project backlog. This project was completed in 2021 is no longer included in our contracted backlog.
