Capstone Turbine Corporation Posts First Quarter Revenue of \$24.3 Million, up 51% From the Same Period Last Year

Gross Margin, Direct Materials Costs and Backlog Continue to Improve

CHATSWORTH, Calif., Aug. 9, 2011 (GLOBE NEWSWIRE) -- Capstone Turbine Corporation (www.capstoneturbine.com) (Nasdaq:CPST) reported operating results for its first quarter ended June 30, 2011 in its Quarterly Report on Form 10-Q filed with the Securities and Exchange Commission on August 9, 2011.

Financial Summary

Revenue for the first quarter of Fiscal 2012 was \$24.3 million, an increase of 51% from the first quarter of Fiscal 2011. Capstone shipped 170 units in the first quarter of Fiscal 2012, compared to 98 units in the same period last year.

Capstone's backlog as of the end of the first quarter of Fiscal 2012 was \$115.3 million, an increase of 36% from the same period last year.

"In the first quarter of Fiscal 2012 Capstone set a company high for top line revenue with revenues up 51% year over year. Gross margin, direct material costs and backlog all continue to improve," said Darren Jamison, Capstone's President and Chief Executive Officer. "We received \$27.9 million in new orders for the quarter, which when combined with the \$42M last quarter gives the company a record \$71 million in new product over the last two quarters. The company now has \$115 million in backlog to execute against over the next 12 months," added Jamison.

The gross margin for the first quarter of Fiscal 2012 was \$0.5 million, or 2% of revenue, compared to a gross loss of \$0.5 million, or 3% of revenue, during the first quarter of Fiscal 2011. The improvement in gross margin of \$1.0 million was the result of a \$3.7 million benefit realized from a change in product mix, which reflects the sale of more microturbine products, parts and factory protection plans during the first quarter of Fiscal 2012. The C30, C65, C200 and C1000 systems had better margins than in the same period last year as a result of higher average selling prices and all products had overall lower direct materials costs. In addition, the \$3.7 million benefit related to product mix was offset by higher warranty expense, production and service center labor and overhead and inventory charges.

Research and development expenses were \$2.2 million for the first quarter of Fiscal 2012, an increase of \$0.7 million from the first quarter of Fiscal 2011. R&D expenses are reported net of benefits from cost-sharing programs. The overall increase in R&D expenses was the result of increased salaries and supplies costs.

Selling, general and administrative expenses were \$6.6 million for the first quarter of Fiscal 2012, an increase of \$0.2 million, or 3%, from the first quarter of Fiscal 2011. The net increase in SG&A expenses was comprised of an increase in professional services, offset by lower facilities and marketing expense.

Capstone's net loss was \$2.9 million, or \$0.01 per share, for the first quarter of Fiscal 2012, compared to net income of \$0.4 million, or \$0.00 per share, reported for the first quarter of Fiscal 2011. The increase in net loss was primarily the result of the adoption of Accounting Standards Codification 815 "Derivatives and Hedging" which affects the Company's accounting for warrants with certain anti-dilution provisions. The Company recorded a non-cash benefit of \$5.6 million to change in fair value of warrant liability during the first quarter of Fiscal 2012. Capstone's net loss for the first quarter of Fiscal 2012 before considering the non-cash benefit to the change in warrant liability would have been \$8.5 million (calculated by adding the \$5.6 million change in warrant liability benefit to the \$2.9 million reported net loss), or \$0.03 loss per share (calculated by adding a \$0.02 loss per share attributable to the change in warrant liability benefit to the \$0.01 loss per share reported). The Company recorded a non-cash benefit of \$9.2 million to change in fair value of warrant liability during the first quarter of Fiscal 2011. Capstone's net loss for the first quarter of Fiscal 2011 before considering the non-cash benefit to the change in warrant liability would have been \$8.8 million (calculated by adding the \$9.2 million change in warrant liability benefit to the \$0.4 million reported net income), or \$0.04 loss per share (calculated by adding a \$0.04 loss per share attributable to the change in warrant liability benefit to \$0.00 per share reported). Capstone's loss from operations for the first quarter of Fiscal 2012 was \$8.3 million, or 2% lower than the \$8.5 million loss from operations for the first quarter of Fiscal 2011.

Cash and cash equivalents for the first quarter of Fiscal 2012 were \$22.1 million, a decrease of \$11.4 million from March 31, 2011. Of the cash used, \$6.8 million was related to changes in working capital accounts. Cash of \$1.3 million, which was classified as restricted cash as of March 31, 2011 as a condition of the amended agreements with Wells Fargo Bank, National Association as security for the Company's Credit Facility, was released in the first quarter of Fiscal 2012.

Conference Call

The Company will host a conference call today, Tuesday, August 9, 2011 at 1:45 p.m. Pacific Time. Access to the live broadcast and a replay of the webcast will be available for 90 days through the Investor Relations page on the Company's website: www.capstoneturbine.com.
