Management Commentary

"Our outstanding results for Fiscal 2013 showcase the progress we've made in transforming Capstone for long-term profitability," said Darren Jamison, Capstone's President and Chief Executive Officer. "This was the best year in Capstone's history – an extraordinary

achievement for a team that has worked diligently to align all of our resources in operations, R&D, customer service, and sales and marketing, and position the company for long-term success. I'm also pleased to report that the fourth quarter of this year was the best year-end period in company history, with record revenue, an excellent book-to-bill ratio, substantially reduced operating loss, and a healthy cash balance.

"Over the past several years we have injected much greater predictability into our operations which has resulted in improved cost controls, increasing margin, reduced cash burn and heightened visibility," Jamison continued. "We have implemented lean manufacturing principles, bolstered our product development efficiency and enhanced our customer service resources. Additionally, our compounded annual revenue growth of 35% over the past 6 years reflects our targeted penetration of key markets that offer maximum potential. By focusing our resources in all the right areas, our foundation for continued success is in place. Capstone has entered Fiscal 2014 with brisk order momentum and expanding market drivers, and we are determined to deliver another banner year for growth and margin expansion."

Fiscal 2013 gross margin was \$14.4 million, or 11% of revenue, compared to Fiscal 2012 gross margin of \$5.4 million, or 5% of revenue. The year-over-year increase in gross margin of \$9.0 million was primarily related to a higher volume of C200 and C1000 Series product shipments, microturbine parts and service revenue, and lower direct material costs during Fiscal 2013, partially offset by increased warranty and royalty expenses.

Research and development expenses were \$9.0 million for Fiscal 2013, compared to \$8.2 million for Fiscal 2012. The increase in R&D expenses of \$0.8 million resulted from increased supplies, salaries and consulting expense, offset by increased cost-sharing benefits.

Selling, general and administrative expenses were \$27.4 million for Fiscal 2013, compared to \$28.9 million for Fiscal 2012. The net decrease in SG&A expenses was comprised primarily of a decrease in bad debt expense and professional services, partially offset by increased salaries and related expenses, business travel expense and marketing expense.

Capstone's net loss was \$22.6 million, or \$0.07 loss per share, for Fiscal 2013, compared to a net loss of \$18.8 million, or \$0.07 loss per share, for Fiscal 2012. Capstone's loss from operations for Fiscal 2013 was \$22.0 million, a 31% reduction from the Fiscal 2012 loss from operations of \$31.7 million.

The Company recorded a non-cash benefit of \$0.7 million to change in fair value of warrant liability for Fiscal 2013. Capstone's net loss for Fiscal 2013 before considering the non-cash warrant liability benefit would have been \$23.3 million (calculated by subtracting the \$0.7 million warrant liability benefit from the \$22.6 million reported net loss), or \$0.08 loss per share (calculated by subtracting a \$0.01 gain per share attributable to the warrant liability benefit from the \$0.07 loss per share reported). The Company recorded a non-cash benefit of \$14.0 million to change in fair value of warrant liability for Fiscal 2012. Capstone's net loss for Fiscal 2012 before considering the non-cash warrant liability benefit would have been \$32.8 million (calculated by subtracting the \$14.0 million warrant liability benefit from the \$18.8 million reported net loss), or \$0.12 loss per share (calculated by subtracting a \$0.05 gain per share attributable to the warrant liability benefit from \$0.07 loss per share reported).
