# Euromonitor International Names Synergy Pro-Argi-9+ the World's #1 L-Arginine Supplement

LEHI, Utah, Dec. 15, 2025 (GLOBE NEWSWIRE) -- Synergy Worldwide, a division of Nature's Sunshine Products, today announced that Euromonitor International has named Pro-Argi-9+ the world's #1 L-arginine supplement,\* reinforcing the product's growing global momentum and Synergy's leadership in the health and wellness space.

Synergy's flagship product, Pro-Argi-9+ offers a unique formula with clinically researched ingredients featuring L-Arginine to support nitric oxide production and promote healthy circulation and blood flow throughout the body. With this certification, Pro-Argi-9+ will continue to serve as the cornerstone of Synergy's mission to help people push the boundaries of their potential through science-based nutrition.

"Pro-Argi-9+ exemplifies Synergy's legacy of translating world-class science into life-changing wellness," said Kevin Fuller, Global Chief Marketing Officer. "Euromonitor International's recognition affirms Pro-Argi-9+ as the category-defining L-arginine supplement and a powerful catalyst for circulation, cardiovascular wellness, and overall vitality."

An L-arginine complexer, Pro-Argi-9 provides a combination of L-arginine and L-citrulline to increase the body's production of nitric oxide, a signaling molecule that relaxes blood vessels and enhances circulation. Additional polyphenols and antioxidants in the formula work to maintain nitric oxide production.

"This recognition is a direct reflection of the passion and consistency of our field," said Dan Norman, President, Asia Pacific. "Across Asia Pacific and around the world, Synergy leaders have shared Pro-Argi-9+ with authenticity and belief — and their commitment is changing lives."

Synergy Worldwide remains committed to advancing innovation and product excellence, and to empowering health through proven solutions like Pro-Argi-9+.
