

# The Space Company Focused on the Future of Planet Earth™

Providing global data,  
analytics and space services

# DISCLAIMER AND FORWARD-LOOKING STATEMENTS

This presentation contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements generally relate to future events or our future performance. In some cases, you can identify forward-looking statements because they contain words such as “will,” “expect,” “plan,” “going to,” “intend,” “target,” “project,” “believe,” “estimate,” “potential,” or “continue,” or the negative of these words or other similar terms or expressions that concern our expectations, strategy, priorities, plans, or intentions. Forward-looking statements are inherently subject to risks and uncertainties, some of which cannot be predicted or quantified. You should not put undue reliance on any forward-looking statements. Forward-looking statements should not be read as a guarantee of future performance or results and will not necessarily be accurate indications of the times at, or by, which such performance or results will be achieved, if at all. The forward-looking statements in this presentation are based on information available to us as of the date hereof, and we disclaim any obligation to update any forward-looking statements, except as required by law. In light of these risks and uncertainties, the forward-looking events and circumstances discussed in this presentation may not occur and actual results could differ materially from those anticipated or implied in the forward-looking statements. Forward-looking statements in this presentation include, but are not limited to, statements regarding Spire’s total addressable market and market opportunity and our second quarter and full year 2023 expected revenue, Annual Recurring Revenue (ARR), ARR Solution Customers, Non-GAAP Operating Loss, Adjusted EBITDA and Non-GAAP Loss Per Share. Our expectations and beliefs regarding these matters may not materialize, and actual results in future periods are subject to risks and uncertainties, including changes in our plans or assumptions, that could cause actual results to differ materially from those projected. These risks include potential disruption of customer purchase decisions resulting from global economic conditions including from an economic downturn or recession in the United States or in other countries around the world, relative growth of Spire’s revenue and annual recurring revenue (ARR), the failure of the Spire and exactEarth businesses (including personnel) to be integrated successfully, the risk that revenue and adjusted EBITDA accretion or the expansion of our customer count, ARR, product offerings and solutions will not be realized or realized to the extent anticipated, our ability to maintain the listing of Spire’s securities on the New York Stock Exchange, our ability to address the market opportunity for Space-as-a-Service, the ability to implement business plans, forecasts, and other expectations, and identify and realize additional opportunities, the risk of downturns, new entrants and a changing regulatory landscape in the highly competitive space data analytics industries, developments in and the duration of the COVID-19 pandemic and the resulting impact on business and operations, and the business of customers and partners, the potential inability to manage effectively any growth experienced, the ability or inability to develop new products and services. The forward-looking statements contained in this presentation are also subject to other risks and uncertainties, including those more fully described in periodic reports Spire has filed with the Securities and Exchange Commission, including Spire’s Annual Report on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K. Except as required by law, Spire Global, Inc. does not undertake any obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future developments or otherwise.

# GAAP to Non-GAAP Reconciliation

In addition to financial measures prepared in accordance with GAAP, this presentation contains non-GAAP financial measures, including free cash flow, non-GAAP operating loss, EBITDA, and Adjusted EBITDA. Spire's management uses these non-GAAP financial measures internally in analyzing its financial results and believes they are useful to investors, as a supplement to the corresponding GAAP financial measures, in evaluating its ongoing operational performance and trends and in comparing its financial measures with other companies in the same industry, many of which present similar non-GAAP financial measures to help investors understand the operational performance of their businesses. However, it is important to note that the particular items Spire excludes from, or includes in, its non-GAAP financial measures may differ from the items excluded from, or included in, similar non-GAAP financial measures used by other companies in the same industry. In addition, other companies may utilize metrics that are not similar to Spire's. The non-GAAP financial information is presented for supplemental informational purposes only and is not intended to be considered in isolation or as a substitute for, or superior to, financial information prepared and presented in accordance with GAAP. There are material limitations associated with the use of non-GAAP financial measures since they exclude significant expenses and income that are required by GAAP to be recorded in Spire's financial statements. Investors should note that the excluded items may have had, and may in the future have, a material impact on our reported financial results. Management encourages investors and others to review Spire's financial information in its entirety and not rely on a single financial measure.
