FORWARD LOOKING STATEMENTS & DISCLAIMERS

This presentation of Veritone, Inc. (the “Company”) contains forward-looking statements that involve substantial risks and uncertainties. The words “anticipate,” “believe,” “estimate,” “expect,” “intend,” “may,” “plan,” “predict,” “project,” “target,” “potential,” “would,” “could,” “should,” and similar expressions are intended to identify forward-looking statements, although not all forward-looking statements contain these identifying words. We may not actually achieve the plans, intentions or expectations disclosed in our forward-looking statements, and you should not place undue reliance on our forward-looking statements. Actual results or events could differ materially from the plans, intentions and expectations disclosed in the forward-looking statements we make. The forward-looking statements contained in this presentation reflect our current views with respect to future events.

Forward-looking statements represent our management’s beliefs and assumptions only as of the date of this presentation. We have included important factors in the cautionary statements included in the Annual Report on Form 10-K and other periodic reports that we have filed with the Securities and Exchange Commission (the “SEC”), particularly in the Risk Factors sections, that we believe could cause actual results or events to differ materially from the forward-looking statements that we make. Those factors include, but are not limited to: our ability to expand our aiWARE SaaS business; declines or limited growth in the market for AI-based software applications and concerns over the use of AI that may hinder the adoption of AI technologies; our requirements for additional capital to support our business growth, and the availability of such capital on acceptable terms, if at all; our reliance upon a limited number of key customers for a significant portion of our revenue; fluctuations in our results over time; the impact of seasonality on our business; our ability to manage our growth, including through acquisitions and our further expansion into international operations; our ability to enhance our products and introduce new products that achieve market acceptance and keep pace with technological developments; actions by our competitors, partners and others that may block us from using the technology in our aiWARE platform, offering it to for free to the public or making it cost prohibitive to continue to incorporate their technologies into our platform; and interruptions, performance problems or security issues with our technology and infrastructure, or that of our third party service providers. Except as required by law, we assume no obligation to update these forward-looking statements publicly, or to update the reasons why actual results could differ materially from those anticipated in the forward-looking statements, even if new information becomes available in the future.

Before you invest, you should read the Company’s Annual Report on Form 10-K, Quarterly Report on Form 10-Q and the other documents the Company has filed with the SEC for more complete information about the Company. You may obtain these documents for free on the Company’s website or by visiting EDGAR on the SEC website at www.sec.gov.

In addition to the Company’s GAAP financial results, this presentation also includes certain non-GAAP financial measures. Tables detailing the items excluded from these non-GAAP financial measures and reconciling such non-GAAP financial measures with the most directly comparable GAAP financial measures are included in the Appendix.

The Company has provided these non-GAAP financial measures because management believes such information to be important supplemental measures of performance that are commonly used by securities analysts, investors and other interested parties in the evaluation of companies in its industry. Management also uses this information internally for forecasting and budgeting.

These non-GAAP financial measures should not be considered as an alternative to net income (loss), operating income (loss) or any other financial measures so calculated and presented, nor as an alternative to cash flow from operating activities as a measure of liquidity. Other companies (including the Company’s competitors) may define these non-GAAP measures differently. These non-GAAP measures may not be indicative of the historical operating results of the Company or predictive of potential future results. Investors should not consider these non-GAAP financial measures in isolation or as a substitute for analysis of the Company’s results reported in accordance with GAAP.

This presentation also contains information using industry publications that generally state that the information contained therein has been obtained from sources believed to be reliable, but such information may not be accurate or complete. While we are not aware of any misstatements regarding the information from these industry publications, we have not independently verified any of the data from third-party sources nor have we ascertained the underlying economic assumptions relied on therein.

VERITONE – IMPOSSIBLE IS OUTDATED

Veritone is a leader in enterprise AI software, services, and applications, helping companies transform their operations and solve the complexities of digital information today. With our AI solutions and rich partner ecosystem, our customers can address their current and future challenges, empowering them to run more efficiently, accelerate decision making, and gain a competitive edge.

INVESTMENT HIGHLIGHTS

Leading Operating System for Artificial Intelligence (AI) Driving Enterprise AI Transformation

Extensible Platform Supported by Large and Growing Enterprise AI Market

Sustained Growth Through Product Innovation and Accelerated by Strategic Inorganic Opportunities

Critical Enterprise Solutions with Growing, and Attractive, Blue Chip Customer base

Founder-Led Entrepreneurial Management Team with Extensive Experience in Building “Data-Centric” Businesses

YoY Growth Coupled with Attractive Financial Model and High Gross Margins

VERITONE MISSION

Veritone is a leading enterprise AI software and services provider that activates the digital transformation of organizations. Our mission is to simply create a better world. One that is safe, dynamic, transparent, and innovative. The AI platform, aiWARE, a leading proprietary operating system (OS) for AI, was designed to achieve this mission. By acting as the foundation for companies across multiple sectors, aiWARE enables the creation of enterprise-scale AI solutions and bespoke applications for customers and partners across industries.

Removing Bias

Transparency

Energy Efficiency/Resilience

Labor Diversity

Resource Optimization

EXTENSIBLE AI PLATFORM ACCELERATING DIGITAL TRANSFORMATION

Veritone's proven Enterprise AI platform, aiWARE™, is the foundation upon which Veritone has helped customers and partners:

BUILD

AI-powered solutions and applications faster and cost-effectively

ACCELERATE

AI enterprise implementation and adoption, increasing operational efficiency

LEVERAGE

A vast ecosystem of proprietary and third-party AI models with minimal integration costs

UNSTRUCTURED DATA PRESENTS LARGE MARKET OPPORTUNITY

80% OF THE WORLD'S DATA IS
UNSTRUCTURED
GROWING 30-60%/YR⁽²⁾

STRATEGIC PRODUCT GROWTH ACCELERATED BY INORGANIC EXPANSION

COMMERCIAL ENTERPRISE SOLUTIONS

Built to Solve Your Business Challenges

Veritone is helping some of the world's most recognizable brands close the gap between traditional enterprise software and cognitive insights enabled by AI solutions and bespoke applications, empowering greater efficiencies, accelerating decision making and driving revenue growth

Data Insight

Gain value from your video, audio, images, text, and data through metadata extraction, search, and visualization, enhancing customer support and system integrations

Content Management & Monetization

Unlock the full potential of your content efforts with AI-powered DAM and synthetic voice creation

Media Intelligence

Provide proof-of-performance metrics for broadcast-to-web attribution while tracking all of your content to make it easier to reuse, provide airchecks and validate sponsorships

Talent Acquisition

Increase the number of qualified applicants, decrease the time to find and hire the best candidates, while removing inefficient HR processes

Enterprise AI for the Metaverse

A suite of solutions including synthetic Voice and Avatars to extend reach and value for both the Real and Digital worlds

SELECTED CUSTOMERS

VERITONE MANAGED SERVICES

VERITONE ONE

Full-service performance advertising agency utilizing aiWARE™ actionable intelligence and leader in the digital influencer

Veritone Licensing

Team of experts and proprietary AI help find footage, rights and clearances for content buyers and rightsholders

TABLE ROCK

Premiere social media influencer management and content production company.

GOVERNMENT & REGULATED INDUSTRIES

Government Solutions

Veritone works with some of the largest federal, state, and local government agencies, solving problems of transparency, compliance, and inefficiencies with AI solutions and bespoke applications

Data Insight

Gain value from video, audio, images, text, and data through metadata extraction, search, and visualization, enhancing customer support and system integrations

Biometric Identification

Authenticate users identify callers and suspects by recognizing voices and faces in videos, images, and calls

Recruitment

Increase the number of qualified applicants, decrease the time to find and hire the best candidates, while removing inefficient HR processes

Redaction

Save time and costs while freeing up valuable resources by using Veritone AI to automate the redaction of sensitive information within audio, video and image-based evidence

Transcription & Translation

Legal and contact center teams, automate manual work with near-real-time transcription and translation of any data source

Tracker

Track persons of interest across videos without using PII.

SELECTED CUSTOMERS

SELECTED CHANNEL PARTNERS

GOVERNMENT & REGULATED INDUSTRIES (CONT'D)

Energy Solutions

Veritone is empowering energy companies with the technology to prepare for changing business models and help the world obtain more efficient energy systems and infrastructure

Real-time Forecasting

AI-powered Forecaster generates highly accurate energy demand, supply and price forecasts using historical and real time data modeling of predicted weather, power demand and DER device data.

Distributed Energy Resources

Distributed AI agents ensure optimal economic dispatch of energy between multiple Distributed Energy Resources (DERs) allowing for autonomous, continuous operation when portions of the grid fail.

Solar Smoothing

The AI-driven Optimizer leverages battery storage for solar smoothing to confidently supplement the gaps in solar power, while minimizing maintenance costs and increasing reliability of solar generation.

Voltage & VAR Optimization

Controls the flow of power on the distribution system to increase efficiency and reliability, reduce distribution energy losses, and accommodate new power flows, such as those originating from distributed generation

(1) Represents PandoLogic, Ltd. revenue prior to our acquisition of PandoLogic on September 14, 2021.

Average Number of Software Customers - Pro Forma	330	372	399	442	485	529	575
Average Annual Revenue (AAR)	\$ 199	\$ 203	\$ 208	\$ 209	\$ 207	\$ 187	\$ 170

SUPPLEMENTAL FINANCIAL INFORMATION

“Ending Software Customers” includes Software Products & Services customers as of the periods presented with trailing twelve-month revenues in excess of \$2,400 for both Veritone, Inc. and PandoLogic and/or deemed by us to be under an active contract for the applicable periods.

“Total New Bookings” represents the total fees payable during the full contract term for new contracts received in the quarter (including fees payable during any cancellable portion and an estimate of license fees that may fluctuate over the term), excluding any variable fees under the contract (e.g., fees for cognitive processing, storage, professional services and other variable services)

“Gross Revenue Retention” is calculated by dividing the total customer retained revenue for Software Products & Services at the end of the specified quarter by the total customer revenue for Software Products & Services at the beginning of such quarter. This measures quarterly revenue lost from customer base, which we believe is our best indicator of customer retention.

“Software Revenue - Pro Forma” includes historical Software Products & Services revenue for the periods presented of each of Veritone, Inc. and PandoLogic Ltd. (unaudited) and presents such revenue on a combined Pro Forma basis treating PandoLogic Ltd. as owned by Veritone, Inc. since January 1, 2021.
