About SmartKem

SmartKem is seeking to reshape the world of electronics with its disruptive organic thin-film transistors (OTFTs) that have the potential to drive the next generation of displays. SmartKem's patented TRUFLEX® semiconductor and dielectric inks, or liquid electronic polymers, are used to make a new type of transistor that could potentially revolutionize the display industry. SmartKem's inks enable low temperature printing processes that are compatible with existing manufacturing infrastructure to deliver low-cost displays that outperform existing models. The company's electronic polymer platform can be used in a number of display technologies including microLED, miniLED and AMOLED displays for next generation televisions, laptops, augmented reality (AR) and virtual reality (VR) headsets, smartwatches and smartphones.

SmartKem develops its materials at its research and development facility in Manchester, UK, its semiconductor manufacturing processes at the Centre for Process Innovation (CPI) at Sedgefield, UK and retains a field application office in Taiwan. The company has an extensive IP portfolio including 125 granted patents across 19 patent families and 40

codified trade secrets. For more information, visit: www.smartkem.com and follow us on LinkedIn and Twitter [@SmartKemTRUFLEX](https://twitter.com/SmartKemTRUFLEX).

Forward-Looking Statements

All statements in this press release that are not historical are forward-looking statements, including, among other things, statements relating to the intended use of proceeds from the private placement, SmartKem's expectations regarding its market position and market opportunity, expectations and plans as to its product development, manufacturing and sales, and relations with its partners and investors. These statements are not historical facts but rather are based on SmartKem Inc.'s current expectations, estimates, and projections regarding its business, operations and other similar or related factors. Words such as "may," "will," "could," "would," "should," "anticipate," "predict," "potential," "continue," "expect," "intend," "plan," "project," "believe," "estimate," and other similar or related expressions are used to identify these forward-looking statements, although not all forward-looking statements contain these words. You should not place undue reliance on forward-looking statements because they involve known and unknown risks, uncertainties, and assumptions that are difficult or impossible to predict and, in some cases, beyond the Company's control. Actual results may differ materially from those in the forward-looking statements as a result of a number of factors, including those described in the Company's filings with the Securities and Exchange Commission. The Company undertakes no obligation to revise or update information in this release to reflect events or circumstances in the future, even if new information becomes available.
