Huntsman Publishes 2017 Sustainability Report

"Bringing Chemistry to Life: Growth and Sustainability in Asia Pacific"

THE WOODLANDS, Texas, Oct. 1, 2018 /PRNewswire/ -- Huntsman Corporation (NYSE: HUN) today published its 2017 corporate sustainability report, *"Bringing Chemistry to Life: Growth and Sustainability in Asia Pacific,"* on its web site at www.huntsman.com/sustainability. The report discusses Huntsman's commitment to Asia Pacific (APAC) and its role in the economic and social development of the region.

Huntsman has regional headquarters, production sites, technology centers, sales offices and customer service centers throughout APAC. Approximately 3,500 Huntsman employees work and live in APAC, and more than one-quarter of the company's \$8 billion in revenues were generated in the region in 2017.

"Over half the world's population lives in APAC, and the region's growth is phenomenal," said Corporate Sustainability Officer Ron Gerrard. "However, such extraordinary growth can bring with it challenging socio-economic trends, like increased urbanization, greater need for adequate food and clean water, and more transportation, energy and power requirements. It gives me great pride to see what Huntsman's products, production facilities and associates in the region are doing to address these issues and to provide solutions that reduce negative impacts and create a more sustainable future."

The 2017 report includes Huntsman's annual Communication on Progress to the United Nations Global Compact, as well as a variety of stories that demonstrate the company's commitment to the United Nations Sustainable Development Goals (SDGs).

This is Huntsman's eighth sustainability report since launching its corporate sustainability initiative in 2010.

About Huntsman:

Huntsman Corporation is a publicly traded global manufacturer and marketer of differentiated and specialty chemicals with 2017 revenues of approximately \$8 billion. Our chemical products number in the thousands and are sold worldwide to manufacturers serving a broad and diverse range of consumer and industrial end markets.
