

#### Ingram Micro Reports Second Quarter Financial Results

IRVINE, Calif.--(BUSINESS WIRE)-- Ingram Micro Inc. today announced financial results for the second guarter ended June 29, 2019. Ingram Micro experienced solid global demand and a strong increase in profits, led by double-digit sales growth, on a currency neutral basis, in commerce and lifecycle services and cloud and an increase in profitability across all lines of business. Worldwide 2019 second guarter net sales were \$11.54 billion, a decrease of 2 percent in USD, with gross margin increasing strongly to 7.02 percent, up 49 basis points, as the company maintained continued focus on a better mix of higher margin sales. This compares to net sales of \$11.80 billion and gross margin of 6.53 percent in the 2018 second quarter. The translation of foreign currencies versus last year had a negative impact of approximately 3 percentage points on worldwide net sales. Non-GAAP operating income for the 2019 second guarter increased 14 percent to \$184 million, or 1.59 percent of sales, and non-GAAP net income was \$119 million. This compares to 2018 second quarter non-GAAP operating income of \$161 million, or 1.36 percent of sales, and non-GAAP net income of \$94 million. GAAP operating income and net income for the 2019 second guarter were \$156 million, or 1.35 percent of sales, and \$97 million, respectively, including: the pre-tax negative impact of \$10 million in restructuring, acquisition and transition costs, net of the receipt of an LCD flat panel class action settlement, and the pre-tax negative impact of \$18 million in amortization expense. This compares to 2018 second guarter GAAP operating income and net income of \$110 million, or 0.93 percent of sales, and \$67 million, respectively.

#### **Non-GAAP Disclosures**

In addition to GAAP results, Ingram Micro is reporting non-GAAP operating income, non-GAAP operating margin and non-GAAP net income for the 2019 second quarter and the six months ended June 29, 2019. These non-GAAP measures exclude charges associated with reorganization, acquisitions, integration and transition costs, including those associated with the company's cost savings programs, and the amortization of intangible assets. These non-GAAP financial measures also exclude a benefit in the second quarter of 2019 related to the receipt of an LCD flat panel class action settlement. Non-GAAP net income also excludes the impact of foreign exchange gains or losses related to the translation effect on Eurobased inventory purchases in Ingram Micro's pan-European entity. 2018 second guarter and year to date non-GAAP operating income further excludes a gain on the sale of affiliates and non-GAAP net income also excludes a non-cash tax benefit primarily related to the intercompany sale of certain intangible assets. The non-GAAP measures noted above are primary indicators that Ingram Micro's management uses internally to conduct and measure its business and evaluate the performance of its consolidated operations and operating segments. Ingram Micro's management believes these non-GAAP financial measures are useful because they provide meaningful comparisons to prior periods and an alternate view of the impact of acquired businesses. These non-GAAP financial measures are used in addition to and in conjunction with results presented in accordance with GAAP. These non-GAAP financial measures reflect an additional way of viewing aspects of our operations that, when viewed with our GAAP results and the accompanying reconciliations to corresponding GAAP financial measures, provide a more complete understanding of factors and trends affecting Ingram Micro's business. A material limitation associated with these non-GAAP measures as compared to the GAAP measures is that they may not be comparable to other companies with similarly titled items that present related measures differently. The non-GAAP measures should be considered as a supplement to, and not as a substitute for or superior to, the corresponding measures calculated in accordance with GAAP. A reconciliation of GAAP to non-GAAP financial measures for the periods presented is attached to this press release.

#### About Ingram Micro Inc.

Ingram Micro helps businesses realize the promise of technology<sup>™</sup>. It delivers a full spectrum of global technology and supply chain services to businesses around the world. Deep expertise in technology solutions, mobility, cloud, and supply chain solutions enables its business partners to operate efficiently and successfully in the markets they serve.
