Wayside Technology Group Appoints Dale Foster to Chief Executive Officer and Board of Directors

Foster to Build Upon Successful Track Record of Growing Wayside's Lifeboat Distribution Business

EATONTOWN, N.J., Jan. 15, 2020 (GLOBE NEWSWIRE) -- Wayside Technology Group, Inc. (NASDAQ: WSTG) ("Wayside" or the "Company"), an IT channel company providing innovative sales and distribution solutions, has promoted Dale Foster to Chief Executive Officer and appointed him to the Company's board of directors (the "Board"), effective January 15, 2020.

Foster joined Wayside in January 2018 as Executive Vice President and was promoted to President of Wayside's Lifeboat Distribution business in July 2019.

"When we brought Dale and his team to Wayside, our objective was to transform the Company—a company that was consistently profitable, but had not realized its potential for growth in the vibrant market for emerging technology vendors," said Jeff Geygan, Wayside's Chairman of the Board. "Over the last two years, Dale has proven his ability to unlock this potential through the various initiatives he introduced and deployed, which have culminated in the Company's return to double-digit growth in gross profit and pre-tax income on a non-GAAP basis. In fact, through the third quarter of 2019, approximately half of our year-to-date gross profit growth has flowed through to pre-tax income on a non-GAAP basis, which also reflects the strong operating leverage in our business.

"The Board unanimously concluded that Dale is the right person to lead the Company into its next stage of growth, as he has demonstrated sound judgment leading Wayside's most prominent business segment, and we look forward to continuing to leverage Dale's extensive experience in the industry as Wayside positions itself as the leading technology distributor for emerging vendors."

Prior to joining Wayside, Foster served as President and Chief Executive Officer of Promark Technology from 1997 until the company was acquired by Ingram Micro in 2012. Following the acquisition, Foster became Executive Director and General Manager of Promark Technology's emerging vendor division, which operated as a subsidiary of Ingram Micro.

Foster's appointment expands the Board to seven—including six independent directors, four of which have joined the Board in the past two years.

Foster commented: "2019 was a record year for Wayside, and I can proudly say that the investments we made in 2018 are paying off. When I joined Wayside in 2018, we embarked

on a strategic shift to become a sales-focused organization through our Lifeboat Distribution business. We made key investments in territory field sales teams and business development and vendor recruitment personnel, all with the shared goals of building closer relationships with top customers and expanding our portfolio of emerging vendors to drive sustainable growth and profitability.

“In 2018, we began to execute on our portfolio expansion by adding multiple emerging vendors, which we continued in 2019, as indicated by our recently added offerings from DataDirect Networks, a leader in AI and intelligent infrastructure, as well as Security Scorecard, a cyber security company specializing in the datacenter environment. Both additions to our Lifeboat portfolio, along with many others, reflect our mission of offering our partners emerging and disruptive technologies that reshape the technology ecosystem.

“As we look to 2020, we will continue to focus on incubating and distributing next-generation technologies to our partners, with an emphasis on emerging cloud and datacenter products. I am honored to lead Wayside into its next evolution of growth and profitability, as we remain in the early stages of delivering on our ambitious goals to position Wayside as the leader in technology distribution for emerging vendors.”

Wayside expects to report its fourth quarter and full year 2019 results on February 19, 2020.

Non-GAAP Measures

As reported on the Form 8-K filed with the Securities and Exchange Commission (the “SEC”) on November 6, 2019 (the “November 8-K”), income before provision for income taxes on a non-GAAP basis excludes executive separation expenses of \$0.1 million and \$2.4 million for the nine months ended September 30, 2019 and 2018, respectively. See our press release attached as an exhibit to the November 8-K for further details.

We use non-GAAP measures, including income before provision for income taxes excluding separation expenses, as supplemental measures of the performance of our business. We define income before provision for income taxes excluding separation expenses as income before provision for income taxes plus separation expenses. We use income before provision for income taxes excluding separation expenses as a supplemental measure of our performance to gain insight into comparison of our businesses profitability when compared to the prior year. Our use of income before provision for income taxes excluding separation expenses has limitations, and you should not consider it in isolation for analysis of our financial results as reported under U.S. GAAP. In addition, other companies, including companies in our industry, might calculate separation expenses, or similarly titled measures differently, which may reduce their usefulness as comparative measures.

Forward Looking Statements

This press release includes certain “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. We make these forward-looking statements in reliance on the safe harbor protections provided under the Private Securities Litigation Reform Act of 1995.

All statements, other than statements of historical fact, included in this Press Release may constitute forward-looking statements.
