UiPath Now Certified for SAP® Solution Manager Test Automation

UiPath's Robotic Process Automation (RPA) solution makes it easier than ever for businesses automating SAP® test management, receives fifth certification in less than one year

NEW YORK--(BUSINESS WIRE)-- UiPath, the leading enterprise [Robotic Process Automation \(RPA\)](#) software company, is making it easier than ever for businesses using SAP® solutions to automate their test management. UiPath is an SAP silver partner in the SAP PartnerEdge® program and today is introducing the UiPath Test Suite.

UiPath Studio 2020.7 achieved its certification for integration with SAP Solution Manager in July 2020. This integration enables customers to obtain maximum value from their investments in SAP software by serving as a hub between SAP Solution Manager for all test management activities and UiPath Studio for Business Process test automation.

The integration delivers creation of automated test cases across the whole enterprise landscape including SAP and third party applications, while providing businesses that use SAP solutions with the ability to execute test cases, exchange complex test data, and ensure the functionality of business process change analyzer (BPCA) for automation projects. In addition, accurate reporting is available, with a consolidated view.

UiPath products provide automation capabilities for SAP user interface technologies such as SAP GUI, SAP Fiori®, and SAP Business Client. Modern cloud offerings such as SAP S/4HANA®, SAP SuccessFactors® solutions, SAP Customer Experience solutions, SAP Ariba® solutions, SAP Fieldglass® solutions and SAP Concur® solutions and can be easily automated through user interface (UI) automations and native integrations. In addition, UiPath automation can be used in any Citrix® or remote desktop environment.

UiPath helps unlock the automation potential for customers moving to SAP S/4HANA along all project phases, from design, through the preparation and development, to supporting data migration, and helping with the testing phase.

In addition, customers who want to dive deep into the world of SAP automation and testing can access new UiPath [Academy courses](#) for free to learn automation techniques and best practices for SAP GUI automation.

In addition, UiPath has the following SAP certifications:

- UiPath Studio 2019.10 achieved SAP certification in December 2019. UiPath Studio allows businesses using SAP solutions to create reliable and stable automations for SAP GUI. They can get full control over their automations and harness the power of UiPath with advanced activities specifically designed for the most efficient way to

automate SAP processes and SAP test cases.

- UiPath API Automation 2 for SAP ERP and UiPath API Automation 2 for SAP S/4HANA On Premise achieved SAP certification in September 2019. The certified integration enables businesses that use SAP solutions to automate processes via BAPI® with simplicity and ease, allowing customers to accelerate their digital transformation, automate critical business operations, and ease migrations.

“We see customers able to drive stronger ROI for their SAP investments with our RPA platform by simplifying the connection between SAP and non-SAP applications easily and with fast time to value,” said Param Kahlon, Chief Product Officer at UiPath. “With our RPA platform, we are accelerating the path to hyperautomation for SAP customers with a simple approach that is easy for enterprises to understand and deploy. As a result, businesses are becoming more efficient, saving money and keeping employees and customers happy.”
