UiPath Automation Cloud™ Achieves HITRUST Risk-based, 2-year Certification Demonstrating the Highest Level of Information Protection Assurance

HITRUST Risk-based, 2-year (r2) Certification validates UiPath is committed to strong cybersecurity and meeting key regulations to protect sensitive data

NEW YORK--(BUSINESS WIRE)-- UiPath (NYSE: PATH), a leading [enterprise automation](#) software company, today announced that [UiPath Orchestrator](#), [UiPath Insights](#), [UiPath Automation Hub](#), and their supporting services in the [UiPath Automation Cloud™](#) Platform have earned certified status by HITRUST for information security.

HITRUST Risk-based, 2-year (r2) Certified status demonstrates that UiPath has met demanding regulatory compliance and industry-defined requirements and is appropriately managing risk. This achievement places UiPath in an exclusive group of organizations worldwide that have earned this certification.

“This HITRUST certification comes after the most rigorous security assessment available in the healthcare technology space,” said Ari Companioni, Director of Governance, Risk, and Compliance (GRC) at UiPath. “Our customers, which include some of the largest healthcare organizations and hospitals in the U.S., trust us with their most sensitive data. We have a tremendous responsibility to protect that data and we’ve always held privacy and security as one of our most important mandates. This certification reinforces that commitment.”

By including federal and state regulations, standards, and frameworks, and incorporating a risk-based approach, the HITRUST Assurance Program helps organizations address security and data protection challenges through a comprehensive and flexible framework of prescriptive and scalable security controls.

The HITRUST certification also serves as a strong addition to other [security compliance initiatives achieved](#) by UiPath, including ISO 27001/17/18 and 9001 certifications, SOC® 2 Type 2, and HIPAA Type 2 attestation.
