Oculus Innovative Sciences Announces Fiscal Second Quarter 2011 Financial Results and Conference Call

PETALUMA, Calif.--(BUSINESS WIRE)-- Oculus Innovative Sciences, Inc. (NASDAQ:OCLS), today announced that the financial results for its fiscal second quarter 2011 ended September 30, 2010, will be released after the U.S. market closes on November 4, 2010. The earnings release will be followed by a conference call at 1:30 p.m. PT (4:30 p.m. ET) on November 4, 2010, to discuss fiscal second quarter results.

Individuals interested in participating in the conference call may do so by dialing 877-303-7607 for domestic callers or 973-638-3203 for international callers. Those interested in listening to the conference call live via the Internet may do so at <http://ir.oculusis.com/events.cfm>. Please log on approximately 30 minutes prior to the presentation in order to register and download the appropriate software.

A telephone replay will be available for 48 hours following the conclusion of the call by dialing 800-642-1687 for domestic callers, or 706-645-9291 for international callers, and entering conference code 16494121. A webcast replay will be available on the site at <http://ir.oculusis.com/events.cfm> for one year following the call.

About Oculus Innovative Sciences

Oculus Innovative Sciences is a commercial medical technology company that designs, produces and markets safe and effective tissue care products based upon the Microcyn(R) Technology platform, which significantly reduces the need for antibiotics while reducing infections and accelerating healing. The Microcyn Technology addresses the need for improved solutions in multiple markets including dermatology, oral care, cosmeceutical, wound care and others. It features a biocompatible, shelf-stable solution that is currently commercialized in the United States, Europe, India, China and Mexico and select Middle East countries under various country specific regulatory clearances and approvals. Several solutions derived from this platform have demonstrated, in a variety of research and investigational studies, the ability to treat a wide range of pathogens, including antibiotic-resistant strains of bacteria (including MRSA and VRE), viruses, fungi and spores; increase blood flow to the wound site; and reduce both inflammation and pain while assisting in faster wound closure. The company's headquarters are in Petaluma, California, with manufacturing operations in the United States and Latin America. More information can be found at www.oculusis.com.
