National Rosacea Society Awards Seal of Acceptance to Sonoma Pharmaceuticals for Reliefacyn Advanced

BOULDER, CO / [ACCESS Newswire](#) / November 13, 2025 / Sonoma Pharmaceuticals, Inc. (Nasdaq:SNOA), a global healthcare leader developing and producing patented Microcyn[®] technology based stabilized hypochlorous acid (HOCl) products for a wide range of applications, including wound care, eye care, dermatological conditions, podiatry, and animal health care, today announced that Reliefacyn[®] Advanced Itch-Burn-Rash-Pain Relief Hydrogel has earned the National Rosacea Society (NRS) Seal of Acceptance.

The NRS introduced the Seal of Acceptance program to identify gentle skin care and cosmetic products that have been clinically tested, expertly evaluated and found to be unlikely to irritate sensitive rosacea skin - providing valuable guidance to those searching for skin care and cosmetics that may be suitable for people with rosacea.

"We are honored to receive this recognition from the National Rosacea Society," said Amy Trombly, CEO of Sonoma Pharmaceuticals. Reliefacyn, which has previously received the National Eczema Association Seal of Acceptance and the National Psoriasis Foundation Seal of Recognition, exemplifies the versatility of Sonoma's Microcyn-based products and the Company's commitment to provide safe and effective skincare solutions to the many people living with chronic skin conditions such as eczema, psoriasis and rosacea."

About Sonoma Pharmaceuticals, Inc.

Sonoma Pharmaceuticals is a global healthcare leader for developing and producing stabilized hypochlorous acid (HOCl) products for a wide range of applications, including wound, eye, oral and nasal care, dermatological conditions, podiatry, animal health care and non-toxic disinfectants. Sonoma's products are clinically proven to reduce itch, pain, scarring, and irritation safely and without damaging healthy tissue. In-vitro and clinical studies of HOCl show it to safely manage skin abrasions, lacerations, minor irritations, cuts, and intact skin. Sonoma's products are sold either directly or via partners in over 55 countries worldwide and the company actively seeks new distribution partners. The company's principal office is in Boulder, Colorado, with manufacturing operations in Guadalajara, Mexico. European marketing and sales are headquartered in Roermond, Netherlands. Forward-Looking Statements

Except for historical information herein, matters set forth in this press release are forward-looking within the meaning of the "safe harbor" provisions of the Private Securities Litigation

Reform Act of 1995, including statements about the commercial and technology progress and future financial performance of Sonoma Pharmaceuticals, Inc. and its subsidiaries (the "company"). These forward-looking statements are identified by the use of words such as "continue," "develop," "anticipate," "expect" and "opportunities," among others. Forward-looking statements in this press release are subject to certain risks and uncertainties inherent in the company's business that could cause actual results to vary, including such risks that regulatory clinical and guideline developments may change, scientific data may not be sufficient to meet regulatory standards or receipt of required regulatory clearances or approvals, clinical results may not be replicated in actual patient settings, protection offered by the company's patents and patent applications may be challenged, invalidated or circumvented by its competitors, the available market for the company's products will not be as large as expected, the company's products will not be able to penetrate one or more targeted markets, and other risks detailed from time to time in the company's filings with the Securities and Exchange Commission. The company disclaims any obligation to update these forward-looking statements, except as required by law.
