Winnebago Public Schools Finds Its Security Solution in Evolv Technology

Nebraska K-12 school enables student safety without harming student experience

WALTHAM, Mass.--(BUSINESS WIRE)-- Evolv Technology (NASDAQ: EVLV), the leader in AI-based weapons detection security screening, today announced the successful work it has done in partnership with Nebraska's Winnebago Public Schools. Winnebago uses Evolv's state-of-the-art Evolv Express® system to help create safer spaces for its elementary through high school students.

Winnebago Public Schools in Winnebago, Nebraska, educates roughly 600 students in kindergarten through Grade 12, all in the same building. Installed just prior to the start of the 2022-2023 academic year, in its first month in use at the school's two entrances, Evolv Express screened more than 17,000 students, educators and visitors.

Evolv Express uses powerful sensor technology with artificial intelligence (AI) to provide safer, more accurate threat detection at unprecedented volume and speed. Students can walk through without always having to stop to remove personal items like cellphones or keys and begin their day engaging positively with school staff. School officials have also found success using Evolv Insights®, an analytics dashboard which allows them to continually improve their security posture for the school day as well as special events by providing the ability to easily access and visualize system performance, student flow, and location-specific performance.

"Being able to see student flows down to five-minute intervals, detection performance at both entrances, when alerts occurred, and detailed unit information provides us with valuable and actionable information," said Adam James, safety and events director for Winnebago Public Schools. "Ultimately, Evolv Express was the only technology that met our requirement to improve security without negatively impacting student experience."

While the school has never had a major issue with weapons being brought in, Evolv Express has detected vapes and other prohibited paraphernalia, which administrators believe has deterred students from attempting to bring banned items to the school. According to school officials, the Winnebago community has responded positively to Evolv, with students saying they feel safer, and parents appreciative that the school is being proactive in elevating security.

"We are very pleased to hear about the success of Evolv in a community like Winnebago," said Peter George, CEO of Evolv Technology. "Empowering teachers, principals and school staff to help increase safety in the buildings and reduce anxiety so that the focus can remain on learning is at the center of our mission in the education space."

Winnebago joins a growing list of schools across the country using Evolv Express to help

keep students, teachers and staff safer so the focus can remain on education. Read related [press releases](#) and [case studies](#) to learn more.

About Evolv Technology

Evolv Technology (NASDAQ: EVLV) is transforming human security to make a safer, faster, and better experience for the world's most iconic venues and companies as well as schools, hospitals, and public spaces, using industry leading artificial intelligence (AI)-powered weapons detection and analytics. Its mission is to transform security to create a safer world to work, learn, and play. Evolv has digitally transformed the gateways in places where people gather by enabling seamless integration combined with powerful analytics and insights. Evolv's advanced systems have scanned more than 425 million people, second only to the Department of Homeland Security's Transportation Security Administration (TSA) in the United States. Evolv has been awarded the U.S. Department of Homeland Security (DHS) SAFETY Act Designation as a Qualified Anti-Terrorism Technology (QATT) as well as the Security Industry Association (SIA) New Products and Solutions (NPS) Award in the Law Enforcement/Public Safety/Guarding Systems category. Evolv Technology®, Evolv Express®, Evolv Insights®, and Evolv Cortex AI® are registered trademarks of Evolv Technologies, Inc. in the United States and other jurisdictions. Forward-looking Statements

Certain statements in this press release may constitute "forward-looking" statements and information, within the meaning of Section 27A of the Securities Act of 1933, Section 21E of the Securities Exchange Act of 1934, and the safe harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995 that relate to our current expectations and views of future events. In some cases, these forward-looking statements can be identified by words or phrases such as "may," "will," "expect," "anticipate," "aim," "estimate," "intend," "plan," "believe," "potential," "continue," "is/are likely to" or other similar expressions. These forward-looking statements are subject to risks, uncertainties and assumptions, some of which are beyond our control. In addition, these forward-looking statements reflect our current views with respect to future events or our Company's performance and are not a guarantee of future performance. Actual outcomes may differ materially from the information contained in the forward-looking statements as a result of a number of factors, including, without limitation, the risk factors set forth in our Annual Report on Form 10-K for the year ended on December 31, 2021, that was filed with the SEC on March 28, 2022, as may be updated in other filings we make with the SEC, including our Quarterly Report on Form 10-Q for the quarter ended on September 30, 2022 that was filed with the SEC on November 9, 2022. These statements reflect management's current expectations regarding future events and operating performance and speak only as of the date of this press release. You should not put undue reliance on any forward-looking statements. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee that future results, levels of activity, performance and events and circumstances reflected in the forward-looking statements will be achieved or will occur. Except as required by law, we undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise, after the date on which the statements are made or to reflect the occurrence of unanticipated events.
