ABOUT CLIFFS NATURAL RESOURCES INC.

Cliffs Natural Resources Inc. is an international mining and natural resources company. A member of the S&P 500 Index, we are the largest producer of iron ore pellets in North America, a major supplier of direct-shipping lump and fines iron ore out of Australia and a significant producer of metallurgical coal. With core values of environmental and capital stewardship, our colleagues across the globe endeavor to provide all stakeholders operating and financial transparency as embodied in the Global Reporting Initiative (GRI) framework. Our Company is organized through three geographic business units:

The North American business unit is comprised of six iron ore mines owned or managed in Michigan, Minnesota and Canada and two coking coal mining complexes located in West Virginia and Alabama. The Asia Pacific business unit is comprised of two iron ore mining

complexes in Western Australia and a 45% economic interest in a coking and thermal coal mine in Queensland, Australia. The Latin America business unit includes a 30% interest in the Amapa Project, an iron ore project in the state of Amapa in Brazil.

Other projects under development include a biomass production plant in Michigan and Ring of Fire chromite properties in Ontario, Canada. Over recent years, Cliffs has been executing a strategy designed to achieve scale in the mining industry and focused on serving the world's largest and fastest growing steel markets.

About Spider Resources Inc.

Spider Resources Inc. is the "Spark that set off the Ring of Fire". Spider, the Pioneer Explorer in the James Bay Region of Northern Ontario since 1993 was responsible for the discovery of eight kimberlites (1994-95), ten VMS occurrences, including two VMS deposits (2002-2006) and one chromite deposit (2006). Regional geophysical surveys and other exploration efforts as initially conducted by Spider formed the exploration data-set that led to the first discovery of chromite in the area in February 2006, in a peridotite intrusion, and about a year later led to the eventual discovery of additional chromite deposits and related magmatic massive sulphide nickel deposits by others. Spider Resources Inc. is a Tier 2 Canadian exploration company, quoted for trading on the TSX Venture Exchange under the symbol SPQ. Spider currently has 660,683,773 common shares outstanding, calculated on a fully-diluted basis. Spider has approximately \$10.6 million in working capital at present of which approximately \$1.8 million is restricted for flow through expenditures.
