## Supplemental Information First Quarter 2019

Current period information is preliminary and based on company data available at the time of the earnings presentation. It speaks only as of the particular date or dates included in the accompanying pages. Bank of America Corporation (the Corporation) does not undertake an obligation to, and disclaims any duty to, update any of the information provided. Any forward-looking statements in this information are subject to the forward-looking language contained in the Corporation's reports filed with the SEC pursuant to the Securities Exchange Act of 1934, which are available at the SEC's website (www.sec.gov) or at the Corporation's website (www.bankofamerica.com). The Corporation's future financial performance is subject to risks and uncertainties as described in its SEC filings.

## Financial Reporting Changes and Reclassifications

Effective January 1, 2019, the Corporation made certain financial reporting changes and reclassifications, which were adopted on a retrospective basis. The changes and reclassifications reflect changes to both the format of the Consolidated Statement of Income and segment allocations. For additional information, see the Corporation's Current Report on Form 8-K filed with the SEC on April 1, 2019. Prior-period financial information presented herein for the Consolidated Statement of Income, Consolidated Balance Sheet, certain consolidated quarterly averages and segment results has been updated to reflect the changes and reclassifications.

## Business Segment Operations

The Corporation reports the results of operations of its four business segments and All Other on a fully taxable-equivalent (FTE) basis. Additionally, the results for the total Corporation as presented on pages 11-12 are reported on an FTE basis.

## Exhibit A: Non-GAAP Reconciliations

## Bank of America Corporation and Subsidiaries <br> Reconciliations to GAAP Financial Measures

(Dollars in millions, except per share information)

The Corporation evaluates its business based on the following ratios that utilize tangible equity, a non-GAAP financial measure. Tangible equity represents an adjusted shareholders' equity or common shareholders' equity amount which has been reduced by goodwill and intangible assets (excluding mortgage servicing rights), net of related deferred tax liabilities. Return on average tangible common shareholders' equity measures the Corporation's net income applicable to common shareholders as a percentage of adjusted average common shareholders' equity. The tangible common equity ratio represents adjusted ending common shareholders' equity divided by total assets less goodwill and intangible assets (excluding mortgage servicing rights), net of related deferred tax liabilities. Return on average tangible shareholders' equity measures the Corporation's net income applicable to common shareholders as a percentage of adjusted average total shareholders' equity. The tangible equity ratio represents adjusted ending shareholders' equity divided by total assets less goodwill and intangible assets (excluding mortgage servicing rights), net of related deferred tax liabilities. Tangible book value per common share represents adjusted ending common shareholders' equity divided by ending common shares outstanding. These measures are used to evaluate the Corporation's use of equity. In addition, profitability, relationship and investment models all use return on average tangible shareholders' equity as key measures to support our overall growth goals.

See the tables below for reconciliations of these non-GAAP financial measures to financial measures defined by GAAP for the three months ended March 31, 2019, December 31, 2018, September 30, 2018, June 30, 2018 and March 31, 2018. The Corporation believes the use of these non-GAAP financial measures provides additional clarity in understanding its results of operations and trends. Other companies may define or calculate supplemental financial data differently.

Reconciliation of average shareholders' equity to average tangible common shareholders' equity and average tangible shareholders' equity

| Shareholders' equity | \$ | 266,217 | \$ | 263,698 | \$ | 264,653 | \$ | 265,181 | \$ 265,480 |  |

Certain prior period amounts have been reclassified to conform to current period presentation.

[^0]:    ${ }^{(1)}$ Tangible equity ratios and tangible book value per share of common stock are non-GAAP financial measures. We believe the use of ratios that utilize tangible equity provides additional useful information because they present measures of those assets that can generate income. Tangible book value per share provides additional useful information about the level of tangible assets in relation to outstanding shares of common stock. (See Exhibit A: Non-GAAP Reconciliations - Reconciliations to GAAP Financial Measures on page 31.)

[^1]:    Certain prior period amounts have been reclassified to conform to current period presentation.

[^2]:    ${ }^{(1)}$ Gross interchange fees were $\$ 2.3$ billion, $\$ 2.5$ billion, $\$ 2.4$ billion, $\$ 2.4$ billion and $\$ 2.2$ billion and are presented net of $\$ 1.4$ billion, $\$ 1.5$ billion, $\$ 1.5$ billion, $\$ 1.4$ billion and $\$ 1.3$ billion of

[^3]:    ${ }^{(1)}$ Regulatory capital ratios at March 31, 2019 are preliminary. We report regulatory capital ratios under both the Standardized and Advanced approaches. The approach that yields the lower ratio is used to assess capital adequacy.
    ${ }^{(2)}$ Tangible equity ratio equals period-end tangible shareholders' equity divided by period-end tangible assets. Tangible common equity ratio equals period-end tangible common shareholders' equity divided by period-end tangible assets. Tangible shareholders' equity and tangible assets are non-GAAP financial measures. We believe the use of ratios that utilize tangible equity provides additional useful information because they present measures of those assets that can generate income. (See Exhibit A: Non-GAAP Reconciliations - Reconciliation to GAAP Financial Measures on page 31.)

[^4]:    Certain prior period amounts have been reclassified to conform to current period presentation.

[^5]:    ${ }^{(2)}$ Includes $\$ 31.4$ billion, $\$ 29.6$ billion and $\$ 31.9$ billion of structured notes and liabilities for the first quarter of 2019 and the fourth and first quarters of 2018, respectively.
    ${ }^{(3)}$ Net interest income includes FTE adjustments of $\$ 153$ million, $\$ 155$ million and $\$ 150$ million for the first quarter of 2019 and fourth and first quarters of 2018, respectively.

[^6]:    ${ }^{(1)}$ These securities are primarily used to satisfy certain international regulatory liquidity requirements.

[^7]:    
    
     and fourth, third, second and first quarters of 2018, respectively.

[^8]:    Total assets include asset allocations to match liabilities (i.e., deposits).

[^9]:    Total assets include asset allocations to match liabilities (i.e., deposits).

[^10]:    ${ }^{(1)}$ Return on average allocated capital is calculated as net income, adjusted for cost of funds and earnings credits and certain expenses related to intangibles, divided by average allocated capital. Other companies may define or calculate these measures differently.
    ${ }^{(2)}$ Total earning assets and total assets include asset allocations to match liabilities (i.e., deposits) and allocated shareholders' equity.

[^11]:    Digital users represents mobile and/or online users.
    ${ }^{(2)}$ In addition to the U.S. credit card portfolio in Consumer Banking, the remaining U.S. credit card portfolio is in GWIM.
    ${ }^{(3)}$ The above loan production amounts represent the unpaid principal balance of loans and, in the case of home equity, the principal amount of the total line of credit.
    ${ }^{(4)}$ In addition to loan production in Consumer Banking, there is also first mortgage and home equity loan production in GWIM.

[^12]:    ${ }^{(1)}$ Return on average allocated capital is calculated as net income, adjusted for cost of funds and earnings credits and certain expenses related to intangibles, divided by average allocated capital. Other companies may define or calculate these measures differently.
    ${ }^{(2)}$ For presentation purposes, in segments or businesses where the total of liabilities and equity exceeds assets, the Corporation allocates assets from All Other to match the segments' and businesses' liabilities and allocated shareholders' equity. As a result, total earning assets and total assets of the businesses may not equal total Consumer Banking.

[^13]:    ${ }^{(1)}$ Return on average allocated capital is calculated as net income, adjusted for cost of funds and earnings credits and certain expenses related to intangibles, divided by average allocated capital. Other companies may define or calculate these measures differently.
    ${ }^{(2)}$ Total earning assets and total assets include asset allocations to match liabilities (i.e., deposits) and allocated shareholders' equity.

[^14]:    ${ }^{(1)}$ Return on average allocated capital is calculated as net income, adjusted for cost of funds and earnings credits and certain expenses related to intangibles, divided by average allocated capital. Other companies may define or calculate these measures differently.
    ${ }^{(2)}$ Total earning assets and total assets include asset allocations to match liabilities (i.e., deposits) and allocated shareholders' equity.

[^15]:    ${ }^{(1)}$ Investment banking fees represent total investment banking fees for Global Banking inclusive of self-led deals and fees included within Business Lending.
    ${ }^{(2)}$ Advisory includes fees on debt and equity advisory and mergers and acquisitions.
    ${ }^{(3)}$ Investment banking fees represent only the fee component in Global Banking and do not include certain other items shared with the Investment Banking Group under internal revenue sharing agreements.
    ${ }^{(4)}$ Criticized exposure corresponds to the Special Mention, Substandard and Doubtful asset categories defined by regulatory authorities. The reservable criticized exposure is on an end-of-period basis and is also shown as a percentage of total commercial reservable utilized exposure, including loans and leases, standby letters of credit, financial guarantees, commercial letters of credit and bankers' acceptances.
    ${ }^{(5)}$ Nonperforming loans, leases and foreclosed properties are on an end-of-period basis. The nonperforming ratio is nonperforming assets divided by loans, leases and foreclosed properties.

[^16]:    Substantially all of Global Markets total revenue is sales and trading revenue and investment banking fees, with a small portion related to certain revenue sharing agreements with other business segments. For additional sales and trading revenue information, see page 21.
    ${ }^{(2)}$ Return on average allocated capital is calculated as net income, adjusted for cost of funds and earnings credits and certain expenses related to intangibles, divided by average allocated capital. Other companies may define or calculate these measures differently.

[^17]:    Includes Global Banking sales and trading revenue of $\$ 115$ million, $\$ 126$ million, $\$ 51$ million, $\$ 79$ million and $\$ 165$ million for the first quarter of 2019 and the fourth, third, second and first quarters of 2018, respectively.
    ${ }^{(2)}$ For this presentation, sales and trading revenue excludes net debit valuation adjustment (DVA) gains (losses) which include net DVA on derivatives, as well as amortization of own credit portion of purchase discount and realized DVA on structured liabilities. Sales and trading revenue excluding net DVA gains (losses) represents a non-GAAP financial measure. We believe the use of this non-GAAP financial measure provides additional useful information to assess the underlying performance of these businesses and to allow better comparison of period-to-period operating performance.

[^18]:    ${ }^{(1)}$ Includes loans and leases, standby letters of credit and financial guarantees, derivative assets, assets held-for-sale, commercial letters of credit, bankers' acceptances, securitized assets, foreclosed properties and other collateral acquired. Derivative assets are carried at fair value, reflect the effects of legally enforceable master netting agreements and have been reduced by cash collateral of $\$ 32.5$ billion, $\$ 32.4$ billion and $\$ 36.5$ billion at March 31, 2019, December 31, 2018 and March 31, 2018, respectively. Not reflected in utilized and committed exposure is additional noncash derivative collateral held of $\$ 28.9$ billion, $\$ 33.0$ billion and $\$ 36.9$ billion, which consists primarily of other marketable securities, at March 31, 2019, December 31, 2018 and March 31, 2018, respectively.
    ${ }^{(2)}$ Total utilized and total committed exposure includes loans of $\$ 5.5$ billion, $\$ 3.7$ billion and $\$ 5.1$ billion and issued letters of credit with a notional amount of $\$ 61$ million, $\$ 100$ million and $\$ 193$ million accounted for under the fair value option at March 31, 2019, December 31, 2018 and March 31, 2018, respectively. In addition, total committed exposure includes unfunded loan commitments accounted for under the fair value option with a notional amount of $\$ 3.0$ billion, $\$ 3.0$ billion and $\$ 4.2$ billion at March 31, 2019, December 31, 2018 and March 31, 2018, respectively.
    ${ }^{(3)}$ Includes U.S. small business commercial exposure.
    ${ }^{(4)}$ Includes the notional amount of unfunded legally binding lending commitments net of amounts distributed (e.g., syndicated or participated) to other financial institutions.
    ${ }^{(5)}$ Industries are viewed from a variety of perspectives to best isolate the perceived risks. For purposes of this table, the real estate industry is defined based on the primary business activity of the borrowers or the counterparties using operating cash flows and primary source of repayment as key factors.

[^19]:    ${ }^{(1)}$ Foreclosed property balances do not include properties insured by certain government-guaranteed loans, principally loans insured by the Federal Housing Administration (FHA), that entered foreclosure of $\$ 400$ million, $\$ 488$ million, $\$ 500$ million, $\$ 573$ million and $\$ 680$ million at March 31, 2019, December 31, 2018, September 30, 2018, June 30, 2018 and March 31, 2018, respectively.
    ${ }^{(2)}$ Balances do not include past due consumer credit card, consumer loans secured by real estate where repayments are insured by the FHA and individually insured long-term stand-by agreements (fully-insured home loans), and in general, other consumer and commercial loans not secured by real estate.
    ${ }^{(3)}$ Balances do not include purchased credit-impaired loans even though the customer may be contractually past due. Purchased credit-impaired loans were recorded at fair value upon acquisition and accrete interest income over the remaining life of the loan.
    ${ }^{(4)}$ Balances do not include the following:

[^20]:    ${ }^{(1)}$ For amounts excluded from nonperforming loans, leases and foreclosed properties, see footnotes to Nonperforming Loans, Leases and Foreclosed Properties table on page 27.
    ${ }^{(2)}$ Consumer loans and leases may be returned to performing status when all principal and interest is current and full repayment of the remaining contractual principal and interest is expected, or when the loan otherwise becomes well-secured and is in the process of collection. Certain troubled debt restructurings are classified as nonperforming at the time of restructuring and may only be returned to performing status after considering the borrower's sustained repayment performance for a reasonable period, generally six months.
    ${ }^{(3)}$ Our policy is not to classify consumer credit card and non-bankruptcy related consumer loans not secured by real estate as nonperforming; therefore, the charge-offs on these loans have no impact on nonperforming activity and, accordingly, are excluded from this table.
    ${ }^{(4)}$ Includes U.S. small business commercial activity. Small business card loans are excluded as they are not classified as nonperforming.
    ${ }^{(5)}$ Commercial loans and leases may be returned to performing status when all principal and interest is current and full repayment of the remaining contractual principal and interest is expected, or when the loan otherwise becomes well-secured and is in the process of collection. Troubled debt restructurings are generally classified as performing after a sustained period of demonstrated payment performance.

[^21]:    Certain prior period amounts have been reclassified to conform to current period presentation.

[^22]:    Certain prior period amounts have been reclassified to conform to current period presentation.

[^23]:    ${ }^{(1)}$ Ratios are calculated as allowance for loan and lease losses as a percentage of loans and leases outstanding excluding loans accounted for under the fair value option. Consumer loans accounted for under the fair value option include residential mortgage loans of $\$ 315$ million, $\$ 336$ million and $\$ 523$ million and home equity loans of $\$ 353$ million, $\$ 346$ million and $\$ 371$ million at March 31, 2019, December 31, 2018 and March 31, 2018, respectively. Commercial loans accounted for under the fair value option include U.S. commercial loans of $\$ 2.8$ billion, $\$ 2.5$ billion and $\$ 3.2$ billion and non-U.S. commercial loans of $\$ 2.7$ billion, $\$ 1.1$ billion and $\$ 1.9$ billion at March 31, 2019, December 31, 2018 and March 31, 2018, respectively.
    ${ }^{(2)}$ Total loans and leases do not include loans accounted for under the fair value option of $\$ 6.2$ billion, $\$ 4.3$ billion and $\$ 6.0$ billion at March 31, 2019, December 31, 2018 and March 31 , 2018 , respectively.
    ${ }^{(3)}$ Includes allowance for loan and lease losses for U.S. small business commercial loans of $\$ 489$ million, $\$ 474$ million and $\$ 446$ million at March 31, 2019, December 31, 2018 and March 31, 2018, respectively.
    ${ }^{(4)}$ Allowance for loan and lease losses includes $\$ 4.1$ billion, $\$ 4.0$ billion and $\$ 4.0$ billion allocated to products (primarily the Consumer Lending portfolios within Consumer Banking and purchased credit-impaired loans) that are excluded from nonperforming loans and leases at March 31, 2019, December 31, 2018 and March 31, 2018, respectively. Excluding these amounts, allowance for loan and lease losses as a percentage of total nonperforming loans and leases was 113 percent, 113 percent and 98 percent at March 31, 2019, December 31, 2018 and March 31, 2018, respectively.
    $\mathrm{n} / \mathrm{m}=$ not meaningful
