Astronics PGA Selected by Jamco to Supply Seat Motion and Lighting Systems for Venture Seat Program

Installations will be on Boeing 787s

EAST AURORA, N.Y.--(BUSINESS WIRE)-- [Astronics Corporation](https://www.astronics.com) (NASDAQ: ATRO), a leading provider of advanced technologies for the global aerospace, defense, and semiconductor industries, announced today that its wholly owned subsidiary, Astronics PGA, was awarded a contract to provide its next-generation [seat motion](#) and [lighting systems](#) for Jamco's new Venture seat program. Astronics PGA also entered into a long-term contract for potential future seat projects.

Under the agreement, Astronics PGA will provide a complete seat motion and lighting

system for passenger comfort in the Venture seat. The system will include Astronics PGA's newer technologies, including full speed control for smooth, ultra-quiet kinematic motion plus controllable mood lighting to enhance the passenger experience.

"Being selected as the motion and lighting system partner by Jamco is a testament to the quality, functionality, and value of our innovative solutions," said Fabrice Berthelot, Astronics PGA President. "With our complete system, customers will benefit from a high level of reliability, while passengers will enjoy unmatched comfort. We appreciate the confidence that Jamco has placed in us and are excited to commence our first seat project with them."

Jamco's new Venture seat product was announced in 2017 in a collaboration with Boeing. The seats align spatially, structurally and aesthetically with the Boeing 787 Dreamliner. KLM Royal Dutch Airlines recently selected these seats for 8 of their new Boeing 787s, set for delivery in mid-2019.

Astronics PGA is an innovator of in-seat motion systems, lighting systems, in-flight entertainment and connectivity systems (IFEC), and cabin management systems (CMS) for business, VIP and commercial aviation. Within commercial aviation, approximately 6,000 seats per year are equipped with its seat motion and lighting systems on more than 80 airlines, making Astronics PGA one of the largest suppliers of these systems for super-first, first and business class seats to date.
