

COLUMBUS

About Columbus: 2020 Data

Our Columbus operations include a hot-dip galvanizing facility in Columbus, Ohio, and a processing facility in nearby Obetz, Ohio. The central Ohio locations provide good shipping access with excellent highway and rail transport. Two zinc pots enable the transition between coatings to be accomplished promptly while allowing for longer exposed runs. The plant produces hot-dip galvanized sheet, using cold-rolled coils supplied by other Cleveland-Cliffs facilities.

Facility Facts

Plant Leadership	Jason Dearth
Union Leadership	Fred Silvia
Acreage	88, hosting two facilities with 443,000 square footage
Coating Capacity	450,000 tons annually
Site Founded	1991
Products	Hot-dip galvanized sheet
Markets Served	Automotive and distribution
Principal Production Facilities	72-inch hot-dipped galvanizing line; facilities two 72-inch rewind lines
Certifications	ISO 9001 Certificate, ISO 14001 Certificate, ISO TS 16949 Certificate, OHSAS 18001 Certificate

About Cleveland-Cliffs

Cleveland-Cliffs is the largest flat-rolled steel producer in North America. Founded in 1847 as a mine operator, Cleveland-Cliffs also is the largest manufacturer of iron ore pellets in North America. The Company is vertically integrated from mined raw materials and direct reduced iron to primary steelmaking and downstream finishing, stamping, tooling and tubing. The Company serves a diverse range of markets due to its comprehensive offering of flat-rolled steel products and is the largest steel supplier to the automotive industry in North America. Headquartered in Cleveland, Ohio, Cleveland-Cliffs employs approximately 25,000 people across its mining, steel and downstream manufacturing operations in the United States and Canada.
