Combining high tensile strength, excellent press-formability, and first-rate surface quality, Cleveland-Cliffs' **NEXMET® 440EX / 490EX** bake hardenable steel is a member of the lightweight steel family. Enabling automotive customers to realize improvements to dent resistance, as well as opportunities in weight savings, NEXMET 440EX / 490EX represents the next generation of high performance material for exposed surface applications.

ADVANTAGES

- **Low carbon base composition**
- **Significant mass savings potential**
- **Improved dent resistance**
- **High strength and formability**
- **Surface-critical application**
- **High total elongation**
- **Superior surface and coating quality**
- **Bake Hardenable**
- **Galvannealed (GA)**
- **Galvanized (GI)**
