Annualized return on average assets was 1.74% and annualized return on average common stockholders' equity was 20.78% for the fourth quarter of 2020, compared to 1.80% and 19.75%, respectively, for the fourth quarter of 2019.

Net interest income was \$92.1 million for the fourth quarter of 2020, compared to \$85.1 million for the third quarter of 2020 and \$75.8 million for the fourth quarter of 2019. The net interest margin in the fourth quarter of 2020 was 3.27% compared to 3.14% in the third quarter of 2020 and 3.47% in the fourth quarter of 2019. Accretion of net fees on PPP loans of \$7.5 million during the fourth quarter of 2020 contributed to 35 basis points of loan yield increase, compared to \$4.0 million of PPP loan fee accretion during the third quarter, or 19 basis points.

Average loans for the fourth quarter of 2020 were \$8.46 billion, an increase of \$99.5 million, or 5% annualized, over average loans of \$8.37 billion for the third quarter of 2020, and an increase of \$1.36 billion, or 19%, over average loans of \$7.10 billion for the fourth quarter of 2019. We originated over 4,900 PPP loans during 2020 for a total of \$1.05 billion. Excluding PPP loans, average loans for the fourth quarter of 2020 were \$7.46 billion, an increase of \$146.6 million compared to the third quarter of 2020, and an increase of \$356.4 million, or 5%, over average loans for the fourth quarter of 2019.

Average total deposits for the fourth quarter of 2020 were \$9.84 billion, an increase of \$371.5 million, or 16% annualized, over average total deposits of \$9.47 billion for the third quarter of 2020, and an increase of \$2.16 billion, or 28%, over average total deposits of \$7.68 billion for the fourth quarter of 2019.

Annualized net charge-offs to average loans were 0.41%, a 13 basis-point decrease compared to 0.54% for the third quarter of 2020 and an increase of five basis points compared to 0.36% for the fourth quarter of 2019. The CARES Act, passed into law on March 27, 2020 as a result of the COVID-19 outbreak, allowed companies to delay their adoption of Accounting Standards Update (ASU) 2016-13, *Measurement of Credit Losses on Financial Instruments* (CECL), including the current expected credit loss methodology for estimating allowances for credit losses. We elected to delay adoption of ASU 2016-13 until the date on which the national emergency concerning the COVID-19 outbreak terminates or December 31, 2020, with an effective retrospective implementation date of January 1, 2020. Based on prevailing economic conditions and forecasts as of the January 1, 2020 adoption date, we recorded a net \$2 million decrease in our allowance for credit losses for CECL adoption effective at January 1, 2020. This decrease is the result of implementing a more quantitative methodology along with the loan portfolio consisting primarily of commercial loans with generally short contractual maturities. The allowance for credit losses for the quarter ending December 31, 2020 was calculated under the CECL methodology and as a percentage of total loans was 1.04%. Other quarter-end periods presented for the allowance for loan losses were not restated for CECL adoption and were calculated under the incurred loss methodology. The allowance for loan losses as a percentage of total loans was 1.09% at September 30, 2020 and 1.05% at December 31, 2019. Excluding PPP loans, for all periods discussed, the allowance for credit losses as a percentage of total loans under the CECL methodology was 1.16% at December 31, 2020, compared to 1.24% and 1.05% at September 30, 2020 and December 31, 2019, respectively, under the incurred loss model. We recorded a \$6.3 million provision for credit losses in the fourth quarter of 2020 compared to \$12.3 million in the third quarter of 2020 and \$5.9 million in the fourth quarter of 2019.
