- Pie Five domestic unit count finished at 33.

"The valiant efforts of our franchisees and team members have been crucial to accomplishing our sixth consecutive quarter of profitability," said Brandon Solano, Chief Executive Officer of RAVE Restaurant Group, Inc. "Our strong sales recovery and focus on cost control is paying off with strong earnings growth despite the pandemic, supply chain disruptions, and labor market upheaval."

"Our first quarter net income before tax of \$288 thousand marks the sixth consecutive quarter of positive income and is 269% better than year ago, demonstrating our brands' resilience and strong connection with our customers. Our franchisees are gritty, refusing to concede to the labor market shortage and continuing to staff their stores and open dining rooms when many competitors are limiting service options, hours and days of operation," said Solano. "This is RAVE's best streak of positive income in nearly a decade as we generate positive operating income and hold nearly \$8.0 million in cash."

"In our first quarter, Pizza Inn saw strong consumer demand for our new House Pan Pizza as we highlighted the differences between our house made dough and competitors' frozen dough and frozen cheese. We will continue to innovate with new products and offers for our customers as we close out this calendar year and look forward to 2022. At Pie Five, we continued to push on the category's hottest trend of stuffed crust by elevating the experience and introducing Pie Five's Parmesan Crunch Stuffed Crust pizza with a trial-driving value offer," Solano said. "More recently, we began testing Korean Barbeque Steak pizza as we continue to differentiate our menu and attract not only pizza, but fast-casual occasions."

"Despite the ongoing challenges related to the Delta variant, we were able to report a strong first quarter with revenue of \$2.6 million and adjusted EBITDA of \$0.4 million," said Clint Fendley, Chief Financial Officer of RAVE Restaurant Group, Inc. "As our revenue continues to recover from its suppressed pandemic levels, we intend to maintain our focus on increasing sales and profitability for both of our brands."

Non-GAAP Financial Measures

The Company's financial statements are prepared in accordance with United States generally accepted accounting principles ("GAAP"). However, the Company also presents and discusses certain non-GAAP financial measures that it believes are useful to investors as measures of operating performance. Management may also use such non-GAAP financial measures in evaluating the effectiveness of business strategies and for planning and budgeting purposes. However, these non-GAAP financial measures should not be viewed as an alternative or substitute for its financial statements prepared in accordance with generally accepted accounting principles.

The Company considers EBITDA and Adjusted EBITDA to be important supplemental measures of operating performance that are commonly used by securities analysts, investors and other parties interested in our industry. The Company believes that EBITDA is helpful to investors in evaluating its results of operations without the impact of expenses affected by financing methods, accounting methods and the tax environment. The Company believes that Adjusted EBITDA provides additional useful information to investors by excluding non-operational or non-recurring expenses to provide a measure of operating performance that is more comparable from period to period. Management also uses these non-GAAP financial measures for evaluating operating performance, assessing the effectiveness of business strategies, projecting future capital needs, budgeting and other planning purposes.

"EBITDA" represents earnings before interest, taxes, depreciation and amortization. Adjusted EBITDA represents earnings before interest, taxes, depreciation and amortization, stock compensation expense, severance, gain/loss sale of assets, costs related to impairment and other lease charges, franchise default and closed store revenue/expense, and closed and non-operating store costs. A reconciliation of these non-GAAP financial measures to net income is included with the accompanying financial statements.
