## **Cerecor Inc. Announces Closing of \$36.4 Million Public Offering of Common Stock and Pre-Funded Warrants**

ROCKVILLE, Md. and CHESTERBROOK, Pa., Jan. 12, 2021 (GLOBE NEWSWIRE) -- Cerecor Inc. (Nasdaq: CERC), a biopharmaceutical company focused on becoming a leader in development and commercialization of treatments for rare pediatric and orphan diseases, announced today the closing of the previously announced underwritten offering of 12,323,077 shares of its common stock at a public offering price of \$2.60 per share (the "Public Offering Price"). In addition, and in lieu of common stock, the Company offered to a certain existing investor pre-funded warrants to purchase up to an aggregate of 1,676,923 shares of common stock at a purchase price of \$2.599 per pre-funded warrant, which represents the Public Offering Price for the common stock less the \$0.001 per share exercise price for each pre-funded warrant. Certain related parties purchased shares of Cerecor common stock in the offering.

Jefferies acted as the sole book-running manager for the offering and Oppenheimer & Co. acted as lead manager for the offering.

The Company also has granted to the underwriters a 30-day option to purchase up to an additional 2,100,000 shares of common stock at the Public Offering Price. The net proceeds to Cerecor from the offering are expected to be approximately \$33.6 million (or \$38.7 million if the underwriters exercise their option to purchase additional shares of common stock in full), after deducting the underwriting discounts and commissions and estimated offering expenses payable by Cerecor. Cerecor intends to use the net proceeds of the offering for general corporate purposes and working capital, primarily to support the ongoing clinical development of key assets within its pipeline and for general and administrative expenses.
