For the 2007 fiscal year, the company surpassed \$10 billion in sales for the first time in its 89 year history. Sales reached a record \$10.7 billion, an increase of 14.2 percent from \$9.4 billion in the previous year. Income from continuing operations increased 30 percent to \$830.0 million compared to \$638.3 million a year ago, and earnings per diluted share from continuing operations increased 32.8 percent to \$7.01 compared to \$5.28 a year ago. Cash flow from operating activities reached a record \$955.0 million, or 8.9 percent of sales.

For the fourth quarter of fiscal 2007, sales increased 9.8 percent to \$2.9 billion, compared to \$2.6 billion in the same period last year. Fourth quarter income from continuing operations increased 15.6 percent to \$217.2 million compared to \$187.9 million a year ago, and fourth quarter earnings per diluted share from continuing operations increased 18.7 percent to \$1.84 from \$1.55 a year ago.

"I want to thank our employees for their continued commitment to premier customer service, profitable growth and financial performance," said Chairman, CEO and President Don Washkewicz. "These three pillars of Parker's Win Strategy enabled us to deliver record quarterly and annual results for our shareholders."

"In surpassing the \$10 billion sales milestone, we continue to demonstrate our propensity to grow. Our compound annual growth rate over the last 35 years is in excess of 11 percent. This year, we grew by more than 14 percent, or more than three times GDP. This exceeded our Win Strategy goal to grow both organically and through disciplined acquisitions at a 10 percent compound annual rate. Of the 14 percent growth, 5 percent was organic, 6 percent was from strategic acquisitions, and the remainder was from the effects of foreign currency exchange rates. We're especially pleased with gains we've made in our Industrial International segment, where revenues grew by 34 percent and operating income grew by 51

percent. Margins in this segment also reached an all time high and continue to approach those in our North American segment. Overall, our revenues and profits are more balanced regionally than ever before, which speaks to the growing demand around the world for our motion and control technologies. By executing our Win Strategy, we delivered record earnings per share in the quarter and for the year. Total shareholder return for the year was 28 percent, or 35 percent higher than the S&P 500, and our return on invested capital remains at the top quartile among our peers."

"We also generated close to \$1 billion in annual cash flow from operating activities, which allowed us to both maintain our strong balance sheet and use cash wisely to invest in our company. We continued to invest in strategic acquisitions this year, purchasing eleven companies that added nearly \$260 million in annualized revenues. We spent \$433 million to repurchase 5.4 million shares, and we made discretionary contributions of \$161 million to our pension funds. In fiscal 2007, we increased dividends 13 percent, paying out approximately \$121 million to shareholders, maintaining our dividend increase record that spans 51 years."

Notes on Orders

Orders provide near-term perspective on the company's outlook, particularly when viewed in the context of prior and future quarterly order rates. However, orders are not in themselves an indication of future performance. All comparisons are at constant currency exchange rates, with the prior year restated to the current-year rates. All exclude acquisitions until they can be reflected in both the numerator and denominator. Aerospace comparisons are rolling 12-month average computations. The Total Parker orders number is derived from a weighted average of the year-over-year quarterly percent change in orders for the Industrial North America, Industrial International, and Climate and Industrial Controls segments, and the year- over-year 12-month rolling average of orders in the Aerospace segment.
