Inpixon Aware Wins Security Excellence Award Honoring the Best Solutions to Secure IoT Devices and Networks

PALO ALTO, Calif., Sept. 24, 2021 /PRNewswire/ -- Inpixon (Nasdaq: INPX), the Indoor Intelligence™ company, today announced that [Inpixon Aware](#) has received a 2021 IoT Evolution Security Excellence Award from [IoT Evolution World](#), a leading publication covering IoT technologies. This is the company's fourth win in five years of this award which recognizes organizations delivering exemplary software or hardware solutions used to secure IoT devices and networks.

Inpixon Aware is Inpixon's security solution that provides organizations broad visibility into their wireless environments. A near real-time security dashboard enables management to visualize the location and movements of active wireless devices in order to make key decisions around security, risk mitigation and public safety. The product uses radio frequency (RF) sensors which detect and position [Wi-Fi](#), [Bluetooth](#), [cellular](#) and [UWB](#) wireless transmissions emanating from phones, smartwatches, tablets, computers, access points, IoT devices and more. Authorized devices can be designated as known, while others can be investigated as possible unauthorized, rogue devices. Alarms can be triggered when wireless devices are in restricted areas such as no-phone zones, and security personnel can be alerted when devices pass customer-defined geofenced boundaries.

"It is my honor to congratulate Inpixon for their innovative work and contribution to the rapidly evolving IoT industry," said Ken Briodagh, editorial director for IoT Evolution World. "The solutions selected for the IoT Evolution Security Excellence Award exemplify innovation driving the fast-growing Internet of Things marketplace."

"Winning this award three years in a row demonstrates our commitment to continued innovation," noted Nadir Ali, CEO of Inpixon. "We're constantly listening to our customers and consistently delivering new and enhanced products that help increase organizations' productivity, operational efficiency and security. Inpixon Aware offers valuable insight into the location of wireless devices, people, and assets to support a wide variety of use cases. We are proud to provide this comprehensive, award-winning solution to the market."

About Crossfire Media

Safe Harbor Statement

All statements in this release that are not based on historical fact are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 and the provisions of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. While management has based any forward-looking statements included in this release on its current expectations, the information on which such expectations were based may change. These forward-looking statements rely on a number of assumptions concerning future events and are subject to a number of risks, uncertainties and other factors, many of which are outside of the control of Inpixon and its subsidiaries, which could cause actual results to materially differ from such statements. Such risks, uncertainties, and other factors include, but are not limited to, the

fluctuation of economic conditions, the impact of COVID-19 on Inpixon's results of operations and global supply chain constraints, Inpixon's ability to integrate the products and business from recent acquisitions into its existing business, the performance of management and employees, the regulatory landscape as it relates to privacy regulations and their applicability to Inpixon's technology, Inpixon's ability to maintain compliance with Nasdaq's minimum bid price requirement and other continued listing requirements, the ability to obtain financing, competition, general economic conditions and other factors that are detailed in Inpixon's periodic and current reports available for review at sec.gov. Furthermore, Inpixon operates in a highly competitive and rapidly changing environment where new and unanticipated risks may arise. Accordingly, investors should not place any reliance on forward-looking statements as a prediction of actual results. Inpixon disclaims any intention to, and undertakes no obligation to, update or revise forward-looking statements.
