sobrsafe™

Company Overview

Founded in 2020 and based in Denver, SOBRsafe (NASDAQ: SOBR) develops transdermal, touch-based sensing technologies designed to support overall wellness, behavioral awareness, and informed decision-making. The company's integrated platform combines proprietary hardware with cloud-based software to provide timely, objective data insights to authorized users, including individuals, families, and organizations.

In 2021, SOBRsafe launched SOBRcheck™, a touch-based solution designed for non-invasive alcohol detection in wellness-focused settings. The system uses transdermal sensing to detect alcohol vapor emitted through the skin, providing quick, contact-based results without requiring breath, blood, or urine samples.

In 2023, the Company expanded its portfolio with SOBRsure™, a wearable wristband designed to provide continuous, passive alcohol insights to support personal wellness goals and accountability. The device is intended to promote awareness and encourage positive lifestyle choices through ongoing data tracking and reporting. For additional information, please contact info@sobrsafe.com
