

Cisco Meraki Adds Phunware Smart Workplace Mobile Solution for Employers to Meraki Marketplace

AUSTIN, Texas--(BUSINESS WIRE)-- [Phunware, Inc. \(NASDAQ: PHUN\)](#) (the “Company”), a fully-integrated [enterprise cloud platform](#) for mobile that provides products, solutions, data and services for brands worldwide, announced today that [Cisco Meraki](#) will now feature the Company’s [Smart Workplace](#) solution for employers in its [Meraki Marketplace](#). Developed on Phunware’s patented [Multiscreen-as-a-Service \(MaaS\)](#) platform, this mobile-first solution has been designed to effectively address critical challenges brought on by managing a workplace not only in a post-pandemic world, but also one that has now become mobile-first.

[Cisco Systems, Inc. \(NASDAQ: CSCO\)](#) acquired Meraki in 2012, and today, [Cisco Meraki](#) is a leader in cloud controlled WiFi, routing and security, all managed from a centralized dashboard. The [Meraki Marketplace](#) is an exclusive catalog of Technology Partners like Phunware that showcases applications developed on top of the Meraki platform, allowing customers and partners to view, demo and deploy commercial solutions.

“We developed MaaS to enable large corporations like Cisco to efficiently distribute our software globally for digital transformation initiatives in mobile environments,” said [Alan S. Knitowski](#), President, CEO and Co-Founder of Phunware. “Our Smart Workplace solution can help enable thousands of Cisco Meraki customers to not only increase employee productivity and satisfaction, but also to provide their visitors and guests with enhanced brand experiences while onsite, including automated arrival and reception check-ins, health surveys, location tracing, broadcast, geofence and beacon-based messaging and personnel and staff engagement by name, position and department.”

Phunware’s [MaaS Smart Workplace](#) solution is optimized to help employers manage room bookings, enable positioning, wayfinding and navigation throughout its facilities, enable location sharing amongst its employees, partners and customers and extend its other building services via mobile integration and activation. Platform integrations with existing third-party solutions also support additional services, including parking management, food ordering, asset tracking, interactive directories, fitness access, security and user feedback, all of which can help drive utilization of onsite services by making them more easily accessible and consumable on mobile.

These new listings are in addition to Phunware’s [COVID-19 pandemic response listings](#), as well as its [previous listing](#) for its patented [MaaS Location Based Services \(LBS\)](#) software that offers customers [native, mobile-first capabilities](#) that deliver proximity, sub one-second, real-time blue dot indoor positioning, navigation and wayfinding functionality across any campus or facility while simplifying and streamlining the underlying integration and management of hardware and software. To learn more, download this [Feature Sheet](#) or [watch this demonstration](#) of how Phunware’s [enterprise cloud platform](#) for mobile powers true digital

transformation.

Safe Harbor Clause and Forward-Looking Statements

This press release includes forward-looking statements. All statements other than statements of historical facts contained in this press release, including statements regarding our future results of operations and financial position, business strategy and plans, and our objectives for future operations, are forward-looking statements. The words “anticipate,” “believe,” “continue,” “could,” “estimate,” “expect,” “expose,” “intend,” “may,” “might,” “opportunity,” “plan,” “possible,” “potential,” “predict,” “project,” “should,” “will,” “would” and similar expressions that convey uncertainty of future events or outcomes are intended to identify forward-looking statements, but the absence of these words does not mean that a statement is not forward-looking.

The forward-looking statements contained in this press release are based on our current expectations and beliefs concerning future developments and their potential effects on us. Future developments affecting us may not be those that we have anticipated. These forward-looking statements involve a number of risks, uncertainties (some of which are beyond our control) and other assumptions that may cause actual results or performance to be materially different from those expressed or implied by these forward-looking statements. These risks and uncertainties include, but are not limited to, those factors described under the heading “Risk Factors” in our filings with the Securities and Exchange Commission (SEC), including our reports on Forms 10-K, 10-Q, 8-K and other filings that we make with the SEC from time to time. Should one or more of these risks or uncertainties materialize, or should any of our assumptions prove incorrect, actual results may vary in material respects from those projected in these forward-looking statements. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required under applicable securities laws. These risks and others described under “Risk Factors” in our SEC filings may not be exhaustive.

By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. We caution you that forward-looking statements are not guarantees of future performance and that our actual results of operations, financial condition and liquidity, and developments in the industry in which we operate may differ materially from those made in or suggested by the forward-looking statements contained in this press release. In addition, even if our results or operations, financial condition and liquidity, and developments in the industry in which we operate are consistent with the forward-looking statements contained in this press release, those results or developments may not be indicative of results or developments in subsequent periods.

About Cisco Meraki

Helping Organizations [#WorkSimple](#)

Cisco Meraki, the industry leader in cloud-managed information technology, creates the simplest, most powerful solutions, helping everyone from small businesses to global

enterprises save time and money. Founded in 2006, Meraki was born out of a desire to simplify an industry that had become increasingly inflexible and complex, leaving many behind. Cisco Meraki technology, managed from an intuitive, feature-rich interface, enables organizations to rapidly roll out digital initiatives, delivering real business value. Backed by a wealth of networking data and insights, Cisco Meraki helps you get things done, so you can do more. Our current portfolio, extensible with open APIs, includes [wireless](#), [cellular gateways](#), [switching](#), [security](#), [SD-WAN](#), [intelligent network insights](#), [endpoint management](#) and [smart cameras](#). Today, Cisco Meraki has over two million active networks and over 5.7 million devices online around the world.
