**Norwood, MA, July 29, 2020 (GLOBE NEWSWIRE)** -- Corbus Pharmaceuticals Holdings, Inc. (NASDAQ: CRBP) ("Corbus" or the "Company"), a clinical-stage drug development company pioneering transformative medicines that target the endocannabinoid system, today announced it has received an aggregate of \$71 million in gross proceeds from its at-the-market ("ATM") offering coupled with the execution of a \$50 million debt financing facility with K2 HealthVentures ("K2HV"), a healthcare-focused specialty finance company.

Pursuant to the previously disclosed \$75 million ATM facility, Corbus has sold 9,167,080 shares at a weighted average price of \$7.70 per share.

Jefferies, LLC is serving as sales agent for the ATM offering.

On July 28, 2020, Corbus entered a debt financing facility with K2HV pursuant to which K2HV agreed to provide up to \$50 million to Corbus. Corbus received the first \$20 million tranche upon signing the debt financing agreement and has the option to draw \$20 million from the second tranche and \$10 million from the third tranche, in each case upon achievement of certain regulatory and developmental milestones. K2HV is an alternative investment firm that partners with innovative life sciences and healthcare companies whose success will positively impact and improve outcomes for patients.

"Our partnership with K2 HealthVentures combined with the proceeds from our ATM transaction strengthens Corbus' balance sheet, providing us with a meaningful cash runway and increasing our ability to have strategic flexibility post data," commented Yuval Cohen, Ph.D., Chief Executive Officer of Corbus.

Morgan Stanley & Co. LLC acted as sole placement agent for the debt financing.

The Company expects its cash and cash equivalents on hand of approximately \$101 million at July 28, 2020 to fund operations into the third quarter of 2021.

The shares of common stock described above were sold by the Company pursuant to a shelf registration statement on Form S-3 (File No. 333-237588), filed with the Securities and Exchange Commission on April 7, 2020, which included a prospectus relating to the ATM . This press release does not constitute an offer to sell or the solicitation of an offer to buy any shares of common stock, nor shall there be any sale of such shares in any state or other jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such state or other jurisdiction.

### **About Corbus**

Corbus Pharmaceuticals Holdings, Inc. is a Phase 3 clinical-stage pharmaceutical company focused on the development and commercialization of novel therapeutics to treat inflammatory and fibrotic diseases by leveraging its pipeline of rationally designed, endocannabinoid system-targeting drug candidates. The Company's lead product candidate, lenabasum, is a novel, oral, selective cannabinoid receptor type 2 (CB2) agonist rationally designed to resolve chronic inflammation and fibrotic processes. Lenabasum is currently being evaluated in systemic sclerosis, cystic fibrosis, dermatomyositis and systemic lupus erythematosus.

Corbus is also developing a pipeline of drug candidates targeting the endocannabinoid system. The pipeline includes CRB-4001, a 2nd generation, selective cannabinoid receptor type 1 (CB1) inverse agonist designed to be peripherally restricted. Potential indications for CRB-4001 include nonalcoholic steatohepatitis (NASH), among others. Corbus expects data from its Phase 1 safety study in 2020.

Lenabasum is not approved for the treatment of systemic sclerosis, dermatomyositis, cystic fibrosis or systemic lupus erythematosus. CRB-4001 is not approved for the treatment of NASH/NAFLD. For more information on Corbus' clinical programs, please visit [here](#).
