Flux Power CTO Paulus Geantil to Join Expert Panel at Future of Electrification Conference Hosted by Zapi Group

Flux Power CTO to Speak on "The Impact of Battery Technology in the Adoption of Electrification"

VISTA, Calif.--(BUSINESS WIRE)-- **Flux Power Holdings, Inc.** (NASDAQ: [FLUX](#)), a developer of advanced lithium-ion energy storage solutions for electrification of commercial and industrial equipment, today announced that Chief Technology Officer Paulus Geantil will participate in an expert panel discussion at the Future of Electrification Virtual Conference, hosted by Zapi Group on Wednesday, February 26, at 8:00 AM PST/11:00 AM EST.

The panel, titled "The Impact of Battery Technology in the Adoption of Electrification," will bring together industry leaders to discuss key factors shaping the future of battery technology, including:

- Battery production costs and their influence on machine pricing
- Battery longevity versus internal combustion engine (ICE) alternatives
- The role of advanced energy storage solutions in accelerating electrification despite skepticism

As a pioneer in advanced lithium-ion energy solutions, Flux Power is committed to supporting the industrial sector's transition to electrification through innovation, efficiency, and sustainability. Paulus Geantil's participation in this panel underscores Flux Power's dedication to driving industry-wide progress and delivering smarter, more sustainable energy solutions.

"The shift toward electrification isn't just about replacing ICEs; it's about delivering smarter, more efficient, and more sustainable power solutions," said Paulus Geantil, CTO of Flux Power. "Flux Power is always looking towards the future of electrification, and we are excited to share our vision and expertise at the Conference."

By engaging in thought leadership discussions such as this panel, Flux Power is reinforcing its position as an industry innovator, leveraging SkyBMS technology, advanced telematics, and real-time data analytics to optimize battery performance and fleet operations.

About the Future of Electrification Conference

The Future of Electrification Conference, hosted by Zapi Group, is a premier industry event bringing together thought leaders, engineers, and business professionals to discuss the future of electrification in industrial applications. The conference focuses on the latest advancements in battery technology, power management, and sustainability across key sectors such as material handling, ground support, and off-highway vehicles. By fostering collaboration and innovation, the event aims to accelerate the global transition to cleaner, more efficient energy solutions.

About Flux Power Holdings, Inc.

Flux Power (NASDAQ: FLUX) designs, manufactures, and sells advanced lithium-ion energy storage solutions for electrification of a range of industrial and commercial sectors including material handling, airport ground support equipment (GSE), and stationary energy storage. Flux Power's lithium-ion battery packs, including the proprietary battery management system (BMS) and telemetry, provide customers with a better performing, lower cost of ownership, and more environmentally friendly alternative, in many instances, to traditional lead acid and propane-based solutions. Lithium-ion battery packs reduce CO2 emissions and help improve sustainability and ESG metrics for fleets. For more information, please visit www.fluxpower.com.

Forward-Looking Statements

This release contains projections and other "forward-looking statements" relating to Flux Power's business, that are often identified using "believes," "expects" or similar expressions. Forward-looking statements involve several estimates, assumptions, risks, and other uncertainties that may cause actual results to be materially different from those anticipated, believed, estimated, expected, etc. Accordingly, statements are not guarantees of future results. Some of the important factors that could cause Flux Power's actual results to differ materially from those projected in any such forward-looking statements include, but are not limited to: risks and uncertainties, related to Flux Power's business, results and financial condition; plans and expectations with respect to access to capital and outstanding indebtedness; Flux Power's ability to comply with the terms of the existing credit facilities to obtain the necessary capital from such credit facilities; Flux Power's ability to raise capital; Flux Power's ability to continue as a going concern; Flux Power's ability to obtain raw materials and other supplies for its products at competitive prices and on a timely basis, particularly in light of the potential impact of the COVID-19 pandemic on its suppliers and supply chain; the development and success of new products, projected sales, cancellation of purchase orders, deferral of shipments, Flux Power's ability to improve its gross margins, or achieve breakeven cash flow or profitability, Flux Power's ability to fulfill backlog orders or realize profit from the contracts reflected in backlog sale; Flux Power's ability to fulfill backlog orders due to changes in orders reflected in backlog sales, Flux Power's ability to obtain the necessary funds under the credit facilities, Flux Power's ability to timely obtain UL Listing for its products, Flux Power's ability to fund its operations, distribution partnerships and business opportunities and the uncertainties of customer acceptance and purchase of current and new products, and changes in pricing. Actual results could differ from those projected due to numerous factors and uncertainties. Although Flux Power believes that the

expectations, opinions, projections, and comments reflected in these forward-looking statements are reasonable, they can give no assurance that such statements will prove to be correct, and that the Flux Power's actual results of operations, financial condition and performance will not differ materially from the results of operations, financial condition and performance reflected or implied by these forward-looking statements. Undue reliance should not be placed on the forward-looking statements and Investors should refer to the risk factors outlined in our Form 10-K, 10-Q and other reports filed with the SEC and available at www.sec.gov/edgar. These forward-looking statements are made as of the date of this news release, and Flux Power assumes no obligation to update these statements or the reasons why actual results could differ from those projected.
