MEXICO CITY, Oct. 27, 2014 /PRNewswire/ -- FIBRA Prologis (BMV: FIBRAPL 14), the leading owner and operator of Class-A industrial real estate in Mexico, today reported results for the third quarter of 2014.

FIBRA Prologis began trading on the Mexican Stock Exchange June 4, 2014. As such, the company does not have comparable results from prior quarters. For the operational metrics included here, the company referred to the performance of the properties in its portfolio prior to ownership by FIBRA Prologis.

Funds from operations ("FFO") in the third quarter were Ps. 323.8 million (approximately US\$ 24.0 million). Net earnings per fully diluted share were Ps. 296.0 million (approximately US\$ 22.0 million) or Ps. 0.47 per CBFÍ (approximately US\$ 0.03 per CBFÍ).

"We had an exceptional quarter, and we feel great about our business for the remainder of the year," said Luis Gutierrez, CEO, FIBRA Prologis. "Real estate fundamentals in Mexico are solid and we see greater demand for our product due to its superior quality and location."

STRONG OPERATING RESULTS

FIBRA Prologis leased 3.3 million square feet (approximately 305,000 square meters) in the third quarter. Operating portfolio occupancy at quarter end was 95.3 percent, an increase of 100 basis points over the prior quarter. Tenant retention in the third quarter was 97.2 percent. Net effective rents on leases signed in the quarter increased 7.5 percent from prior in-place rents. Lease renewals totaled 3 million square feet (278,700 square meters) of which 27.5 percent were leases set to expire in 2015 and thereafter.

Cash same-store net operating income ("NOI") increased 0.4 percent. Cash same store NOI gains derived from an increase in occupancy and positive net effective rent change were offset by free rent that resulted from the quarter's higher leasing volume.
